

Visual Impairment

Menu: Focus | People | Students | Involvement Summary Details | Links | Visual Impairment | Vision Issues/Conditions

Visual Impairment

A separate Licence File is required for Visual Impairment.

The **Show Visual Impairment** flag must be checked in Focus | Services | CSS Service Teams Administration and the **Service Team** must be linked to an **Involvement Form** in Focus | Services | CSS Involvement Forms. Visual Impairment can only be recorded against a **CSS Generic Involvement** that has a single Subject recorded against it.

To access **Visual Impairment** open an Involvement from the **Student Involvement Summary** or **My Involvements** on the **Home** page and click on the link in the **Links** panel.

Vision Issues/Conditions

Allows you to record one or more **Vision Issues** and one or more **Eye Conditions**.

Vision Issues:
Use and to open and close **Choose Vision Issues**. Click to Add the **Available Vision Issues** (Table_ID 0739) to the **Selected Vision Issues**. Click to Remove **Selected Vision Issues** back to the **Available Vision Issues**.

Eye Conditions:
Eye Condition is not mandatory, but a warning icon is displayed to indicate that this data is missing.
Use and to open and close **Choose Eye Condition**. Click to Add the **Available Eye Conditions** (Table_ID 0852) to the **Selected Eye Conditions**. Click to Remove **Selected Eye Conditions** back to the **Available Eye Conditions**.

Cause: A free text field

Details

Allows recording of further details of the Student's Visual Impairment: **Diagnosis, Additional Details, Visual Aids**

Diagnosis: Use Calendar to enter **Date of Diagnosis** and **Date of Onset**

Age at Diagnosis and **Age at Onset** are calculated automatically based on the dates entered.

Visual Impairment

Menu: Focus | People | Students | Involvement Summary Details | Links | Visual Impairment | Details / Eye Tests

Details (cont'd)

Additional Details	
Registration <input type="text"/>	Mobility Required <input checked="" type="checkbox"/>
Registration No. <input type="text"/>	Mobility Level <input type="text"/>
Health District <input type="text"/>	Mobility Officer <input type="text"/>
Hospital <input type="text"/>	Ophthalmologist <input type="text"/>

Additional Details:

Select **Registration** from (Table_ID 0738)
 Enter **Registration No.**
 Select **Health District** from (Table_ID 0735)
 Select **Hospital** from (Base Search)

box if **Mobility Required**
 Enter **Mobility Level** (free text field)
 Select **Mobility Officer** and **Ophthalmologist** from
 Use to show **Person Details**

Visual Aids	Other Low Vision Aids Memo
Visual Aids	
Uses Spectacles <input type="text"/>	
Uses Contact Lens <input checked="" type="checkbox"/>	Uses Braille <input checked="" type="checkbox"/>
	Uses Moon <input checked="" type="checkbox"/>
	Touch Typing <input checked="" type="checkbox"/>

Visual Aids

Select if **Spectacles** are used or not.
 Use or to record if any additional Visual Aids are required.
 A **Memo** is available to record details related to **Other Low Vision Aids**

Eye Tests

Eye Tests:

Allows you to record one or more **Eye Tests** against the Visual impairment for the Subject.
 The details of the Eye Test have been grouped into sub-tabs to simplify the process of entering data and to enable you to navigate around the various components of the test.

Vision Issues/Conditions	Details	Eye Tests	Memo	UDFs
Eye Test Details Summary				
New <input type="button"/> Delete <input type="button"/>				
Test Date* <input type="text"/>	Test Location <input type="text"/>	Tested By <input type="text"/>		
14/12/2010 10:00		<input type="text"/>		

Eye Test Details Summary:

Set up a **New Eye Test**. **Test Date** is mandatory *
Test Date, **Test Location** and **Tested By** are editable fields
 Use **Person Search** to record **Tested By**
 The **Filter functionality** is available
 (see [RG_Online_Common Functionality](#))

Vision Details	Visual Attention/Light Difficulty	Visual Pursuit/Lettering	Memo
Near Vision			
Test Type <input type="text"/>	Left Eye Right Eye Both Eyes		
Near at <input type="text"/> cm <input type="text"/> <input type="text"/> <input type="text"/>			
Distance Vision

Without Glasses <input type="text"/> <input type="text"/>			
With Glasses <input type="text"/> <input type="text"/>			
Colour Vision Details			
Test Type <input type="text"/>			
Colour Difficulty: Red/Green <input checked="" type="checkbox"/> Blue/Yellow <input checked="" type="checkbox"/> All Colours <input checked="" type="checkbox"/>			
Field Difficulty			
Upper Left <input checked="" type="checkbox"/>	Upper Right <input checked="" type="checkbox"/>		
Lower Left <input checked="" type="checkbox"/>	Lower Right <input checked="" type="checkbox"/>		
Central <input checked="" type="checkbox"/>	Depth perception difficulty <input checked="" type="checkbox"/>		

Vision Details:

Enter information relating to **Near Vision**, **Distance Vision**, **Colour Vision Details** and **Field Difficulty**
 Select **Test Type** from (Table_ID 0851)
 Use or to record other details

Visual Impairment

Menu: Focus | People | Students | Involvement Summary Details | Links | Visual Impairment | Eye Tests / Memo / UDFs

Eye Tests (cont'd)

The screenshot shows the 'Eye Tests' form with tabs for 'Vision Details', 'Visual Attention/Light Difficulty', 'Visual Pursuit/Lettering', and 'Memo'. The 'Visual Attention/Light Difficulty' section includes text input fields for 'Loses attention beyond', 'Preferred object colours', and 'Preferred background colours'. It also has checkboxes for 'Visual crowding difficulty', 'Hearing difficulty', 'Mainly attends to movement', 'Physical difficulty', and 'Epilepsy'. The 'Light Difficulty' section includes text input fields for 'Best print colour' and 'Best paper colour', and checkboxes for 'Low light difficulty', 'Sensitivity to light and glare', and 'Difficulty adjusting to change in light level'.

Visual Attention Difficulty/Light Difficulty:
Enter the required details using the free text fields or the checkboxes ✓✗

The screenshot shows the 'Eye Tests' form with tabs for 'Vision Details', 'Visual Attention/Light Difficulty', 'Visual Pursuit/Lettering', and 'Memo'. The 'Visual Pursuit/Lettering' section includes a grid of checkboxes for various directions: Left->Centre, Centre->Right, Left->Right, Right->Centre, Centre->Left, Right->Left, Top->Centre, Centre->Bottom, Top->Bottom, Bottom->Centre, Centre->Top, and Bottom->Top. The 'Lettering' section includes text input fields for 'Smallest Lettering No.', 'Distance Lettering No.', 'Preferred', and 'Threshold'.

Memo: The Memo tab allows you to record information related to the Eye Test

Visual Pursuit Difficulty/Lettering:
Enter the required details using the free text fields or the checkboxes ✓✗

Memo

The screenshot shows the 'Memo' form with tabs for 'Vision Issues/Conditions', 'Details', 'Eye Tests', 'Memo', and 'UDFs'. The 'Memo' section features a rich text editor with a toolbar containing options for font (bold, italic, underline, font color, background color), paragraph (bullet point, numbered list, indent), insert (table, link, unlink), and tools (undo, redo).

Memo:
The Memo is available to record any information related to the Visual Impairment (see [RG_OnLine_Common Functionality](#))

UDFs

UDFs are set up in Tools | Administration | UDF Management.
If UDFs have not been set up you will receive a message "No UDFs have been defined."

The screenshot shows the 'UDFs' form with tabs for 'Vision Issues/Conditions', 'Details', 'Eye Tests', 'Memo', and 'UDFs'. The 'UDFs' section displays a list of subjects under the heading '02. Subjects'. One subject is visible: 'Date of Arrival in Local Authority' with a text input field next to it.

UDFs: The panel to which the UDF was assigned is identified. It will also list the panels which do have UDFs assigned to them in the same order as the panels in **One v4** and list the UDFs in the order in which they appear within a v4 panel.
Select the required field and enter the relevant data.
