

Online CSS | My Workload Involvement Details | Visual Impairment

Menu: My Workload | My Involvements | Involvement Details | Links | Visual Impairment | Vision Issues/Conditions / Details

Visual Impairment

A separate Licence File is required for Visual Impairment.

The **Show Visual Impairment** flag must be checked in v4 client | Focus | Services | CSS Service Teams Administration and the **Service Team** must be linked to an **Involvement Form** in Focus | Services | CSS Involvement Forms. Visual Impairment can only be recorded against a **CSS Generic Involvement** that has a single **Subject** recorded against it.

To access **Visual Impairment** open an Involvement from My Workload | **My Involvements** and click on the **Links** drop-down ▼ or from the **Involvement Details** for a Person/Student

Vision Issues/Conditions

Allows you to record one or more **Vision Issues** and one or more **Eye Conditions**.

Icons available on each tab

Click the UDFs buttons to view existing UDFs related to panels

Vision Issues:
Use + and - to open and close **Choose Vision Issues**.
Click + to Add the **Available Vision Issues (Table_ID 0739)** to the **Selected** Vision Issues.
Click X to Remove **Selected** Vision Issues back to the **Available Vision Issues**.

Eye Conditions:
Eye Condition is not mandatory, but a warning icon ⚠ is displayed to indicate that this data is missing.
Use + and - to open and close **Choose Eye Condition**.
Click + to Add the **Available Eye Conditions (Table_ID 0852)** to the **Selected** Eye Conditions.
Click X to Remove **Selected** Eye Conditions back to the **Available Eye Conditions**.

Cause: A free text field

Details

Allows recording of further details of the Student's Visual Impairment: **Diagnosis, Additional Details, Visual Aids**

Click the UDFs button to view existing UDFs related to the panel

Diagnosis: Use Calendar to enter **Date of Diagnosis** and **Date of Onset**

Age at Diagnosis and **Age at Onset** are calculated automatically based on the dates entered.

 Enter information relating to **Near Vision, Distance Vision, Colour Vision Details** and **Field Difficulty**
 Select **Test Type** from (Table_ID 0851)
 Use or to record any other details

Online CSS | My Workload Involvement Details | Visual Impairment

Menu: My Workload | My Involvements | Involvement Details | Links | Visual Impairment | Eye Tests / Memo / UDFs

Eye Tests (cont'd)

Visual Attention Difficulty/Light Difficulty:
Enter the required details using the free text fields or the checkboxes

Memo: The Memo tab allows you to record information related to the Eye Test

Visual Pursuit Difficulty/Lettering:
Enter the required details using the free text fields or the checkboxes

Memo

Memo:
The Memo is available to record any information related to the Visual Impairment (see *RG_Online_Common_UDFs_Memo*.)

UDFs

UDFs are set up in v4 | Tools | Administration | UDF Management.
If UDFs have not been set up you will receive a message **"No UDFs have been defined."**
(see *RG_Online_Common_UDFs_Memo*).

UDFs: The panel to which the **UDF** was assigned in **One** v4 client is identified. It will also list the panels which do have UDFs assigned to them in the same order as the panels in **One** v4 and list the UDFs in the order in which they appear within a v4 panel.
Select the required field and enter the relevant data.
