Logging in

1. In your web browser, go to the IYSS homepage. If you do not know the address, contact your Youth Justice coordinator.

The screenshot shows the login interface for the ONE IYSS Application. It features a blue header with the text "Welcome to the ONE IYSS Application". Below the header, the word "login" is displayed in a large, bold font. The form includes fields for "User ID:" and "Password:", each with a corresponding input box. Below these fields, there is a prompt: "Please select the requested characters from your Memorable Data:". This is followed by two dropdown menus labeled "Character 2:" and "Character 6:". A blue "log in" button with a white right-pointing arrow is positioned below the dropdowns. At the bottom of the form area, there are three paragraphs of text: "You only have 6 login attempts before being locked out. If you are locked out, please contact your system administrator on xxxxx xxxxxx.", "If you share your computer, or if others might have access to it, you should log out and close all your browser windows when you have finished using oneiyss.", and "So you don't forget, we'll log you out automatically if your secure session is inactive for a long period of time."

2. Enter your **User ID**.
3. Enter your **Password**.
4. Click the **log in** button.

03 | Creating a New Client Record

To create a new Youth Justice record for a young person:

1. Log in to **my homepage**.
2. In the blue header, click the **clients** hyperlink to display the **Client Search** screen.

The screenshot shows the 'clients' page with a blue header containing 'my homepage | clients | providers | opportunities | ys activities | log out'. Below the header is a breadcrumb trail 'my homepage > client search'. The main content area is titled 'Client Search' and contains several input fields: 'Name:', 'Alias:', 'One ID:', 'Date of Birth (dd mm yyyy):', 'Gender:' (with a dropdown menu set to '(None)'), 'In Cohort:', 'IYSS and People:', 'IYSS Records (Person Inactive):', 'IYSS Inactive Records:', 'ULN:', and 'UPN:'. There are also three 'select' buttons and a 'search' button.

3. Enter as much detail as possible into the relevant fields.
4. Click the **search** button to display a list of matching results.

The screenshot shows the 'clients' page with a blue header containing 'my homepage | clients | providers | opportunities | ys activities | log out'. Below the header is a breadcrumb trail 'my homepage > client search > client search results'. The main content area is titled 'Search Results' and shows '4 client(s) found, showing 1 - 4 of 4'. Below this is a table with the following columns: Name, Date of Birth, Postcode / Address, Current Situation, and Team. Each row has a checkbox and a warning icon.

Name	Date of Birth	Postcode / Address	Current Situation	Team

04 | Accessing Client Records

Panels containing your Youth Justice cases and more recently viewed clients, as well as clients in certain situations are displayed on **my homepage**. You may wish to bookmark important clients to facilitate access to their record without needing to return to **my homepage**.

Accessing Client Records from My Homepage

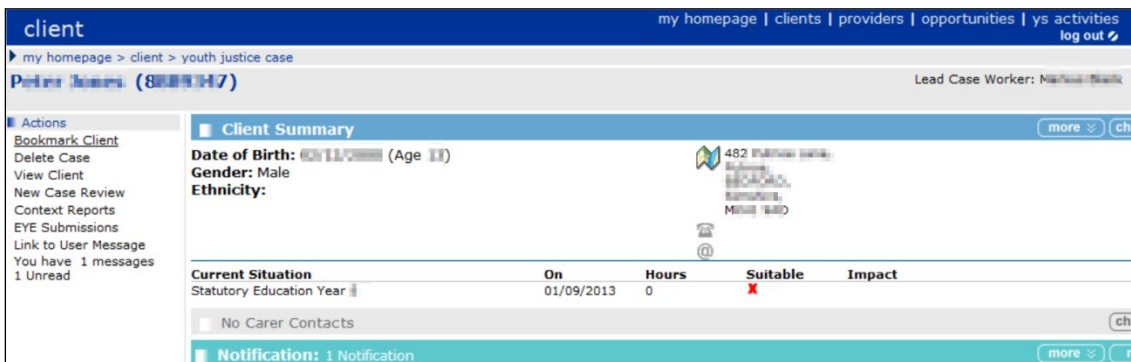

1. Log in to **my homepage**.
2. In the **My YJ Cases** panel, click the name of the client to access their record.

Creating a Client Bookmark

To create a client bookmark:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.

2. In the **Actions** menu on the left-hand side, click the **Bookmark Client** hyperlink.

Accessing a Bookmarked Client Record

You can access client records through bookmarks from most screens other than the **General / Client, Provider / Opportunity** or **Admin / Manager** tabs on the my homepage main screen. You can find bookmarked clients in the grey bar denoted by the bookmark bar icon. To access a bookmarked client record, click the required client name to display their record.

 *Bookmark bar icon*

Removing a Client Bookmark

To remove a client bookmark:

1. In the bookmarks bar at the top of the screen, click the name of the required client to access their client record.

2. In the **Actions** menu on the left-hand side, click the **Remove Bookmark** hyperlink.

Managing Key Clients

To receive email updates about changes to clients, you must set them as Key Clients. This also enables you to determine if and when a hyperlink to their client record is displayed on in the **Key Clients** panel in **my homepage**. The Key Client function is an IYSS function, and so is managed through clients' IYSS records, not the Youth Justice module.

To create or edit Key client settings:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Actions** menu on the left-hand side, click the **View Client** hyperlink to display the clients' IYSS record
3. In the **Actions** menu on the left-hand side, click the **Key Client** hyperlink to display the **Change Key Client** screen.

4. If you want email notifications for this client, select the **Email me when this client is updated** check box.
5. Select the appropriate radio button in the **Show a link to this client on My Homepage** field.
6. Click the **continue** button to save changes and return to the client record.

05 | Situations

Overview of Situations

The client's case record displays the client's current situation as part of the **Client Summary** panel. Situation information includes the client's current education, employment or training status. You cannot update or add situation information from within the client's YJ case record. However, you can use the **Situations** section of the client record (accessed via the **View Client** link from the **Actions** menu) to add or amend situation information.

Adding an Unlinked Situation

The following procedure shows how to add an unlinked situation to a client record. This example adds a new NEET situation, but the process is similar for all types of situations.

1. Access the required client case. For more information, see [Accessing Client Records](#) on page 19.

The screenshot displays the 'client' interface with the following sections:

- Client Summary:**
 - Date of Birth: 05/06/ (Age)
 - Gender: Female
 - Ethnicity: WBRI - White British

- Situation Impact: None, Negative, None, Positive
- Notes: [empty text area]

'back' and 'continue' buttons are located at the bottom right of the form.

6. Click the **continue** button to save the information and return to the **Change Situations** screen.
7. Click the **continue** button to return to the **Client Summary** screen.
8. To return to the client case record, click the **details** button in the **Youth Justice Case** panel.

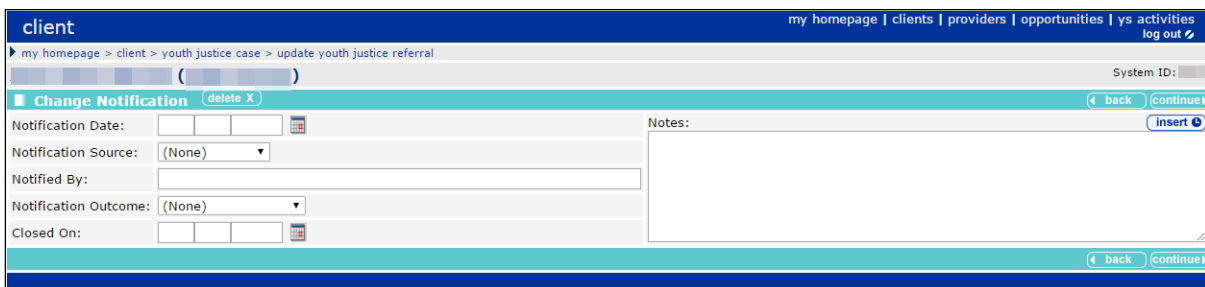

06 | Entering a New Notification

Notifications are displayed in the **Notification** panel along with the key names and dates. If a client does not have any notifications, the panel header is grey and reads **No Notifications**.

To record a new notification:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Notification** panel, click the **new** button to display a blank notification.

3. Enter the **Notification Date** in dd/mm/yyyy format or click the calendar icon to select it from the menu.
4. Select the **Notification Source**.
5. Enter the name of the notification source in the **Notified By** field.
6. If known, select the **Notification Outcome**.
7. If known, enter the **Closed On** date in dd/mm/yyyy format or click the calendar icon to select it from the menu.
8. Click **Continue** to save and return to **my homepage**

NOTE: Contact your System Administrator if you need new **Notification Source** or **Notification Outcome** options configuring.

07 | Locking and Unlocking Records

Client records can be locked to prevent changes being made to the data. Users with the appropriate permissions can manually lock client records. These records remain locked until a user unlocks them

Client, opportunity and provider records are automatically locked out to other users while they are being edited. This prevents other people from entering information until the editing user has saved the changes. These records might remain locked if the session is terminated before the user has successfully logged out. Records locked in this manner are unlocked when the Cleanup job runs overnight, however they can also be unlocked by users with the 'User Security Details' permission through the IYSS web application.

Manually Locking a YJ Case Record

To lock a record, you need to have the 'YJ Case – Lock / Unlock' permission assigned. You can lock a record to prevent any changes being made to the data. For more information on permissions, refer to the *Editing Security Group Permissions* topic in the *Security Group* chapter of the *One IYSS System Administration Handbook*, available from the One Publication website (www.onepublications.com).

To lock a YJ Case record:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Actions** menu, click the **Lock Case** hyperlink to display the **Lock Case** dialog.

3. Enter a **Reason**.
4. Click the **apply** button to lock the case. The record is now locked and cannot be updated.

Unlocking a YJ Case Record

To unlock a record to allow changes to be made, you need to have the 'YJ Case – Lock / Unlock' permissions assigned. For more information on permissions, refer to the *Editing Security Group Permissions* topic in the *Security Group* chapter of the *One IYSS System Administration Handbook Part 1*, available from the One Publication website (www.onepublications.com).

To unlock a client record:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Actions** menu, click the **Unlock Case** hyperlink to display a confirmation dialog.

3. Click the **OK** button to unlock the client record. The client record is now unlocked and can be updated.

Unlocking Records

If a record is locked out, the following message is displayed to any users who attempt to edit it:

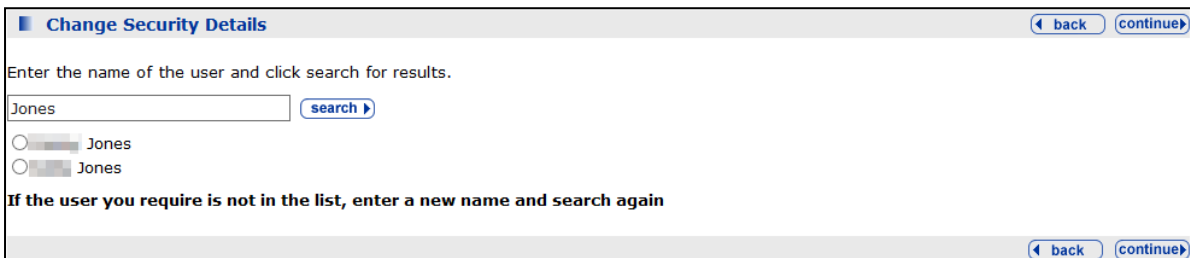

If you have the 'Change User Security Details' permission, you can unlock all records that are 'in use by' (i.e. locked out to) a certain user. Before unlocking records, ensure that this user has logged out of the system, as the process tidies up and unlocks all of that user's active sessions and locked records.

To unlock the records:

1. In the **IYSS Links** panel of my homepage, click the **User Security Details** hyperlink to display the **Change Security Details** page.

2. Enter the name of the user in the search field.
3. Click the **search** button to display the results.

4. Select the required user.

Locking and Unlocking Records

5. Click the **continue** button to display the security details below the results list.

The screenshot shows a web interface titled "Change Security Details". At the top right, there are "back" and "continue" buttons. Below the title, there is a text input field containing "Jones" and a "search" button. Underneath, there are two radio button options, both labeled "Jones". A bold instruction reads: "If the user you require is not in the list, enter a new name and search again". Below this, there are two empty text input fields. A horizontal line separates this section from the "Unlock Records" section. The "Unlock Records" section has a warning: "Warning: Make sure the user is logged out of the system before proceeding. This process will tidy up any sessions before unlocking records." Below the warning are three checkboxes: "Client", "Provider", and "Opportunity". At the bottom right, there are "back" and "continue" buttons.

6. In the **Unlock Records** panel, select the required check boxes.
7. Click the **continue** button. The records are unlocked and you are taken back to **my homepage**.

08 | Allocating Workers

09 | Offences

Entering a New Offence

Offences can be added individually or, if they share the same date and time, multiple offences can be added at the same time. When adding multiple offences, each offence shares the same information, such as **Offence Date** and **Other Offenders**. However, once added, each offence can be edited individually via the **Offences** panel. If adding multiple offences, one offence should have the **Main Offence** check box selected. Until at least one offence is added, the panel header is grey and reads **No Offences**.

Main	Date	Offence	End Date	Charged	Latest Outcome
<input checked="" type="checkbox"/>		Other theft : Theft by walk-in (sneak-in) : 3			
<input type="checkbox"/>		Burglary in a dwelling : Burglary dwelling - theft / attempt theft with violence : 7			
<input type="checkbox"/>		Public fear, alarm or distress : Use threatening / abusive / insulting words / behaviour with intent to cause fear of / provoke unlawful violence : 2			

For more information on the criteria defining outstanding, current and historic offences, see [Appendix A: Offences and Episodes](#) on page 151.

To add a new offence:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Offences** panel, click the **new** button to display the **New Offence** screen.
3. Start typing the name of the **Offence** to display a list of options, or enter the PNLD code.
4. Select the required offence.
5. If applicable, select the **Main Offence** check box and enter the **Crime URN**.
6. Click the **+** icon to add the offence.
7. To add additional offences, repeat steps 2-6.
8. Complete the remaining relevant fields.
9. If required, complete the **Additional Aggravated Circumstances** field:
 - a. Select the item from the menu.
 - b. Click the **+** icon to add the circumstance.
 - c. If required, repeat steps a and b to add additional circumstances.
10. If required, add other offenders:
 - a. Click the **link client** button to display the **Add Other Offender** screen.

Offences

- b. Enter as much information as you know.
- c. Click the **Search** button to reveal people matching the criteria you entered.
- d. Select the radio button next to the person you wish to add.
- e. Click the **continue** button to save the information and return to the **New Offence** screen.

NOTE: The co-defendants must be available within YJ prior to being added to an offence. Adding a co-defendant does not automatically update the co-defendant's record with the new offence. You must manually add the same offence into the co-defendant's YJ case.

11. To add behaviours to the offence:

Select the behaviour from the **Behaviours Involved** drop-down, **Behaviours Involved** drop-down or enter it into the **Other** field.

Click the **+** icon next to the drop-down or **Other** field. Depending on your screen resolution, the **+** icon for the **Other** field may be below the drop-down:

The '**Behaviours Involved**' dropdown list includes '**County Line Related**'. This option can be selected when creating or editing an Offence in the **Client** screen and in AssetPlus **Offending and Anti-Social Behaviour** screen.

The list of offences displayed in the Client Offence screen is the same displayed in AssetPlus Anti-Social Behaviour screen. This gives the flexibility where an Offence can be either added, updated or removed.

Bulk Updating Events

Introduction

You can add events to multiple client records if the event details being added are the same for each client. If there are minor variations for certain clients, such as one of the clients did not comply, you can amend the individual client record after performing the bulk update. Only users with the following Client Bulk Update permissions can use the YJ bulk update functionality:

- BU - YJ Events
- Bulk Update Client

Before bulk updating clients, you must first add them to a client group.

Creating a Client Group

Client groups are temporary, and are cleared down when you end your current YJ session. You can save a group as a list for future use if required.

To create a client group:

1. In the One Youth Justice, Click the **clients** hyperlink at the top of the screen to display the **Client Search** screen.

The screenshot shows the 'Client Search' interface. At the top, there is a navigation bar with 'clients' highlighted and links for 'my homepage', 'providers', 'opportunities', and 'ys activities'. A 'log out' link is also visible. Below the navigation bar, the breadcrumb 'my homepage > client search' is shown. The main content area is titled 'Client Search' and contains several search criteria:

- Name:** [Text input field]
- Alias:** [Text input field]
- One ID:** [Text input field]
- Date of Birth (dd mm yyyy):** [Three input fields for day, month, and year]
- Gender:** [Dropdown menu with '(none)' selected]
- In Cohort:** [Checkbox]
- IYSS and People:** [Checkbox]
- IYSS Records (Person Inactive):** [Checkbox]
- IYSS Inactive Records:** [Checkbox]
- ULN:** [Text input field]
- UPN:** [Text input field]

Below the search criteria, there are three filtering options, each with a 'select' button:

- To select clients with a situation linked to a provider click **select**
- To select clients with a situation linked to an opportunity click **select**
- Statutory Education Provider **select**

At the bottom, there is a field for 'Statutory School Leaving Year: [Text input field]'.

2. Enter the client's **Name**.

Events

- Click the **search** button to display the **Search Results** screen.

Name	Date of Birth	Postcode / Address	Current Situation	Team
<input type="checkbox"/>		No Correspondence Address	Unknown, LEAVER at Secondary School from	Workgroup 1

<input type="checkbox"/>		No Correspondence Address	Unknown, LEAVER at from	Workgroup 1
<input type="checkbox"/>		No Correspondence Address	Unknown, LEAVER at from	Workgroup 2

- Select the required client.
- Click the **add to group** button to add the client to the **Client Group** panel on the left-hand side.
- In the **Actions** menu on the left-hand side, click the **New Search** hyperlink to return to the **Client Search** screen.
- Repeat steps 2-6 until all required clients have been added to the **Client Group** panel.

NOTE: To remove clients from the group, click the **X** icon next to their name.

- If required, save the list for future use. For more information, see [Saving Client Lists](#) on page 50.

Saving Client Lists

You can save lists for yourself or to share with others. To create a list for your own use, you must have the Create Saved List permission. To share the list with others, you must have the Create Shared Saved List permission.

To see the list in **my homepage**, you, and anyone with whom the list has been shared, must have the My Saved Client List permission.

To save a client list:

- Create a client group. For more information, see [Creating a Client Group](#) on page 49.
- In the **Group Actions** menu, click the **Create Saved List** hyperlink to display the **Create Saved List** screen.

3. Enter a **List Name** and **Description**.
4. To share the list, select the **Share List** radio button and click the **select** button to select the required users.
5. Click the **continue** button to save the list and return to the **Search Results** screen.

The client list can now be accessed from the **My Saved Client Lists** panel.

NOTE: To use a client list, you must access the list through the **My Saved Client Lists** panel, and then add the clients to a new client group.

Bulk Updating an Event

Bulk updating an event applies the event details to all clients in the group. If you need to edit the details for a single client following the bulk update, you can do so through their case record.

To bulk update an event:

1. Create a client group (see [Creating a Client Group](#) on page 49, or [Saving Client Lists](#) on page 49).
2. In the **Group Actions** menu, click the **Add Events** hyperlink to display the **Bulk Update Event** screen.

3. If required, amend the **Date** and **YJ Worker** fields.

14 | AssetPlus

Introduction

This chapter provides guidance on completing AssetPlus stages within One YJ. For more information about AssetPlus, refer to the *AssetPlus Guidance* document, created by the YJB, or the *AssetPlus product notes*, available on the One Publications website.

AssetPlus data is recorded and edited in an AssetPlus stage via the **AssetPlus** panel. If there are no existing stages, the panel header is grey and reads **No AssetPlus Stages**.

Only one AssetPlus stage can be active at any given time. The stage draws on data existing in the client's core record. This data can be edited within the stage if required. If you need to record a new stage while an existing stage is still in progress, you must stop or complete the existing stage first. If you stop a stage, you cannot complete it, and will need to open a new stage and restart it.

Some AssetPlus modules are only available in certain stages. Modules in AssetPlus are displayed in blue in the stage section panel in AssetPlus stages.

The checkboxes displayed next to the sections and subsections are to assist you in manually tracking stage completion progress. You can select the checkbox after you have completed or reviewed a section or subsection to indicate that it is complete.

NOTE: The checkboxes are for reference only. They are not part of the validation process and have no bearing on the completion of the stage or the data it contains.

AssetPlus Stages

The **Referrals** and **Restorative Justice** modules could apply to any stage type. Other modules are Stage type dependant. The following table lists the Stage type dependant modules and the stages in which they are available:

Module	Available in Stage
Referral Order Panel Report	Case Closure (Only if active disposal is Referral Order.)
	Referral Order Report
	Review (Only if active disposal is Referral Order.)
Custody	Bail Recommendation
	Entering Into Custody
	Placement Notification
	Post Court Report

Module	Available in Stage
	Pre-Sentence Report (All Options)
Bail and Remand	Bail Recommendation
	Post Court Report
Pre-Sentence Report	Pre-Sentence Report
	Pre-Sentence Report (All Options)
Leaving Custody	Pre-Release
YOT - YOT	Transfer YOT to YOT
YOT - Adult Services	Transfer to Probation

NOTE: The module subsections are also Stage type dependant, and are only displayed depending on the information requirements for each stage.

The **Cross AssetPlus** icon, when displayed, enables you to quickly access related data held in other AssetPlus sections.

Mandatory AssetPlus fields are indicated by an asterisk (*). AssetPlus pages and fields can be completed in any order, however you must complete the mandatory fields before a page can be saved or a stage can be completed.

Certain AssetPlus fields are trigger questions. If the response requires further information, additional fields are displayed.

For information on how offence and ASB incident data is populated forward from stopped or complete stages to new stages, see [Appendix A: Offences and Episodes](#) on page 151 and [Appendix B: ASB Incidents and Episodes](#) on page 152.

Creating a New AssetPlus Stage

The stage type **'Entering Custody'** is for use by the Secure Estate only. Completed stages of this type may appear in records of young people where AssetPlus stages have been 'imported' from a Secure Establishment, but 'Entering Custody' will not appear in the list of stage types to choose from when you create a new stage.

To create a new AssetPlus stage:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. If this is the client's first stage, in the **AssetPlus** panel, click the **new** button to display the **New AssetPlus Stage** screen.

3. If the client has had previous stages:
 - a. In the **AssetPlus** panel, click the details button to display the most recent **AssetPlus Stage Summary**.

- b. In the **Actions** menu on the left-hand side, click the **Open Stage** hyperlink to display the **New AssetPlus Stage** screen.

- c. If you are given the option to pre-populate the stage, select the appropriate radio button.

NOTE: The **Pre-Populate Stage** option is only displayed for new stages following a case closure stage, and if your system administrator has configured it to do so. Pre-populating a stage pulls through all information entered in previous stages and records it in the new stage. All stages preceded by any other stage are automatically pre-populated. Regardless of whether the new stage is pre-populated or not, you should still ensure that all the relevant and current information is entered.

4. Select the required **Stage** from the drop-down.

Certain stages require court appearance or panel information. If the **Stage** you selected needs additional information, an additional field is displayed:

- If the stage needs linking to a court appearance, select the appropriate option from the **Hearing Date** field.

The stage is now created. To save the stage for editing at a later date, click the **continue** button to return to the client's case record. To begin editing the stage immediately, in the **Actions** menu, click the **Change Stage** hyperlink (see [Editing an AssetPlus Stage](#) on page 61)

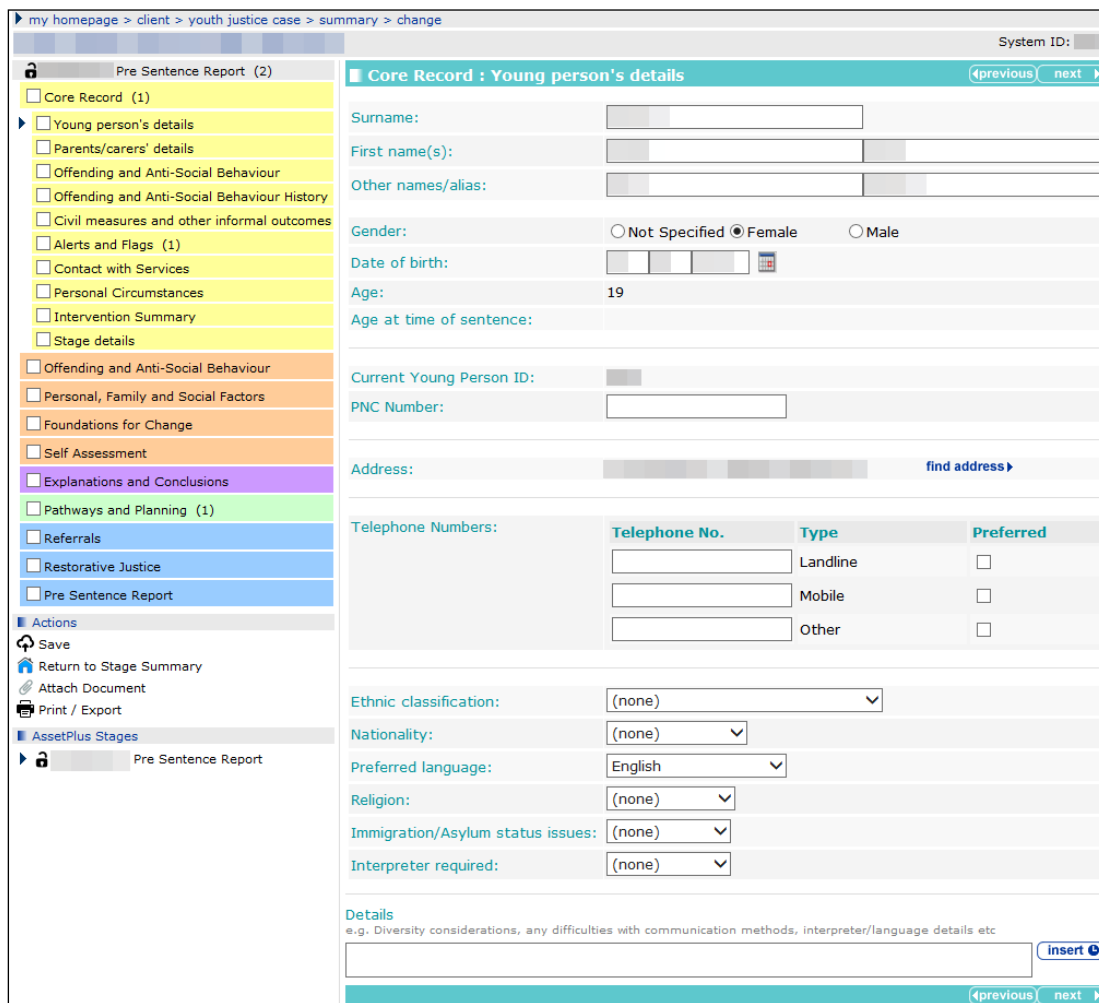

Editing an AssetPlus Stage

To edit an AssetPlus stage:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **AssetPlus** panel, click the **Stage Name** of the required AssetPlus stage to display the **AssetPlus Stage Summary** screen.

3. In the **Actions** menu on the left-hand side, click the **Change Stage** hyperlink to display the change screen.

Where the information exists in the client's record or in previous stages, it is automatically pulled through into the stage. You can update existing information or enter missing information in the pages here. (See [Creating a New AssetPlus Stage](#), step 3.c on page 60 for the exception to this.)

The coloured menus on the left-hand side are the different sections and subsections of the stage. You can navigate through the stage by clicking the required page in the menu, or by using the **previous** and **next** buttons.

4. Proceed through the stage and provide or update the information as required.
5. To save progress for completion at a further date, click the **Save** hyperlink in the **Actions** menu. After all the required information has been entered, the stage can be signed off.

Adding People to a Stage

You can assign sections and subsections of the stage to other users.

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **AssetPlus** panel, click the **Stage Name** of the required AssetPlus stage to display the **AssetPlus Stage Summary** screen.

3. In the **Actions** menu on the left-hand side, click the **Change Stage** hyperlink to display the change screen.

4. In the **Core Record** section, select the **Stage details** subsection.

5. In the **Other persons involved in the stage** table header, click the **add** button to display the **Other Persons** dialog.

6. Select the **User** to whom the section is to be assigned.
7. Select the **Section** to assign. The **Sub-section** drop-down is displayed.
8. Select the appropriate **Sub-section**.
9. Click the **continue** button to add the user to the stage.

Name	Job Title	Section	Sub-section	
[Redacted]	YJ Worker	Self Assessment	Young Person	add edit delete

10. In the **Actions** menu on the left-hand side, click the **Save** hyperlink to save the changes. You can now exit the stage.

Updating Parent and Carer Details

You can link to existing parent/carer records within an AssetPlus stage. Any changes made to the record within the stage are automatically updated across the One suite. Similarly, any changes made to the record in other areas of One are reflected in AssetPlus.

You cannot create new parent/carer records within AssetPlus. You can only link to existing ones.

To link to a parent/carer record:

1. In the **Parents/carers' details** or **Parents/Carers/Significant adults details** subsection, click the **new** button to display the **Add Parent Carer** dialog.

2. Select the parent or carer's **Relationship to the Young Person** from the drop-down.
3. Complete the **Name**, **Date of Birth** and **System ID** fields with as much detail as available.
4. Click the **search** button to display the results.

Name	Date of Birth	Postcode / Address
[Redacted]	[Redacted]	[Redacted]

5. Select the appropriate person.

6. Click the **continue** button to add the parent or carer to the record.

Episodes

Introduction

Episodes are groups of related offences or antisocial behaviour incidents. You should only group offenses or incidents that have similar circumstances, influences, motivations and attitudes. You cannot include offenses and antisocial behaviours in the same episode.

You can only add current offences (offences for which guilt has been admitted or established) to an episode. An offence is current if:

- It has a plea of Guilty, Found Guilty or Offence Admitted (in any court appearance), but it has no outcome.
- It has a substantive outcome, but no linked intervention programme; it has never been included in an episode within a completed AssetPlus stage.
- It has a substantive outcome and a current intervention programme (currency defined by the start and end dates).

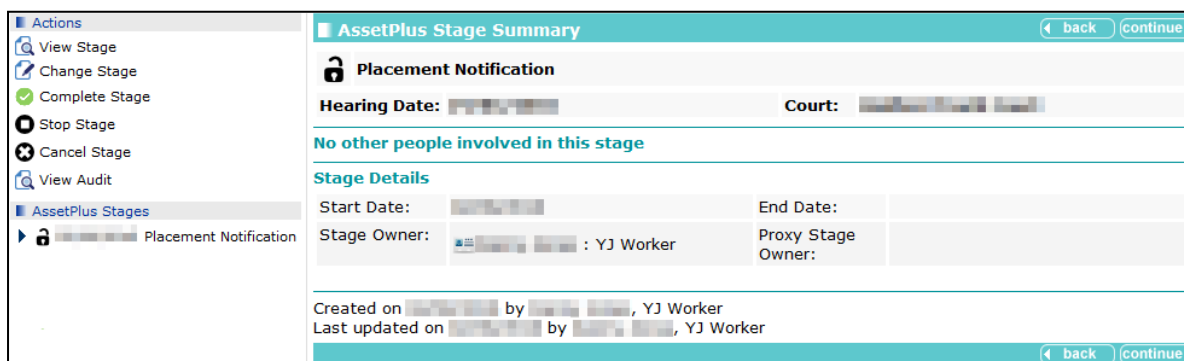

Offences that stop meeting these criteria while a stage is in progress remain current until the stage is stopped or completed.

When all interventions associated with the offences in an episode finish, the episode becomes historic and can no longer be updated.

Creating an Episode

To create an episode:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **AssetPlus** panel, click the **Stage Name** of the required AssetPlus stage to display the **AssetPlus Stage Summary** screen.

3. In the **Actions** menu on the left-hand side, click the **Change Stage** hyperlink to display the change screen.

4. Navigate to the **Offending and Anti-Social Behaviour** subsection of the core record.

- In the **Offence(s)** or **ASB Incident(s)** table, select the offences or incidents you want to add to the episode.

Attaching Documents to a Stage

NOTE: Attached documents are only displayed within the appropriate subsections of the current stage, i.e. the subsection to which it was uploaded, or all subsections of the section to which it was uploaded. Documents do not get copied to subsequent stages or displayed in the **Documents, Notes, Forms & Requests** panel in the client's Youth Justice case record.

To attach a document to a stage section or subsection:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **AssetPlus** panel, click the **Stage Name** of the required AssetPlus stage to display the **AssetPlus Stage Summary** screen.

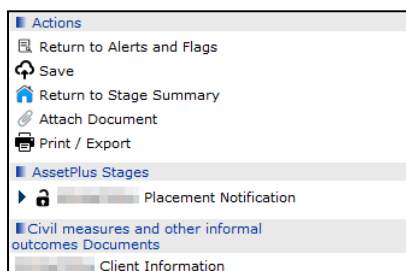

3. In the **Actions** menu on the left-hand side, click the **Change Stage** hyperlink to display the **change** screen.

4. Navigate to the required section or subsection.
5. In the **Actions** menu on the left-hand side, click the **Attach Document** hyperlink.

If the subsection does not permit the attaching of documents, the **Attach Document to [Section Name]** screen is displayed.

If the subsection does permit the attaching of documents, the **Attach Documents** screen is displayed.

- If required, select the relevant **Attach To** radio button to add the document to the section or subsection.
- Enter a **Document Title**.
- Click the **Browse...** button to display the **Choose File to Upload** dialog.
- Navigate to and select the file, then click the **Open** button to close the dialog.
- Click the **continue** button to upload the document. It is displayed in the left-hand side of the screen below the appropriate subsections.

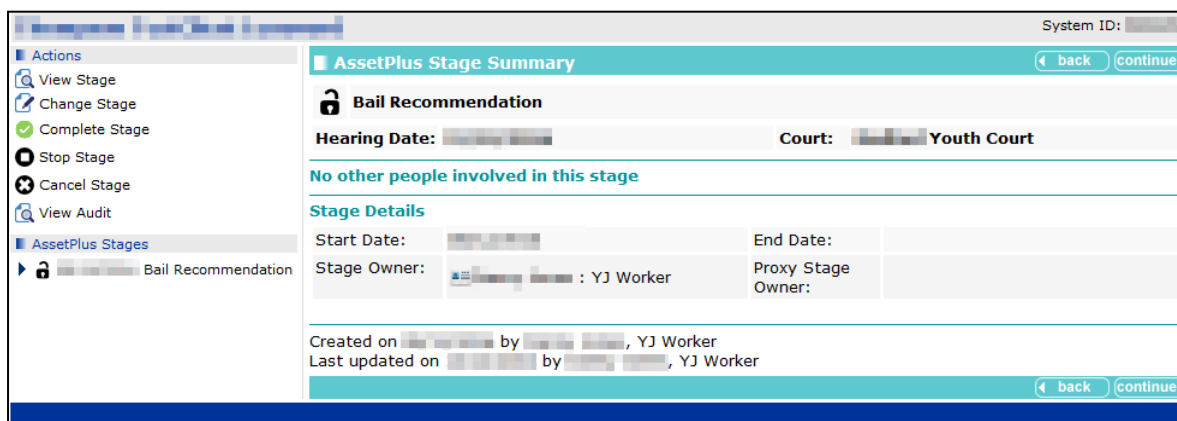

Stopping an AssetPlus Stage

WARNING: If you stop an AssetPlus stage, you can no longer edit it and it cannot be completed or signed off. If you need to complete it, you will need to open a new stage, which will automatically populate with the data in your stopped stage, so you can pick up where you left off.

To stop a stage:

- Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
- In the **AssetPlus** panel, click the **Details** button to display the **AssetPlus Stage Summary** screen.

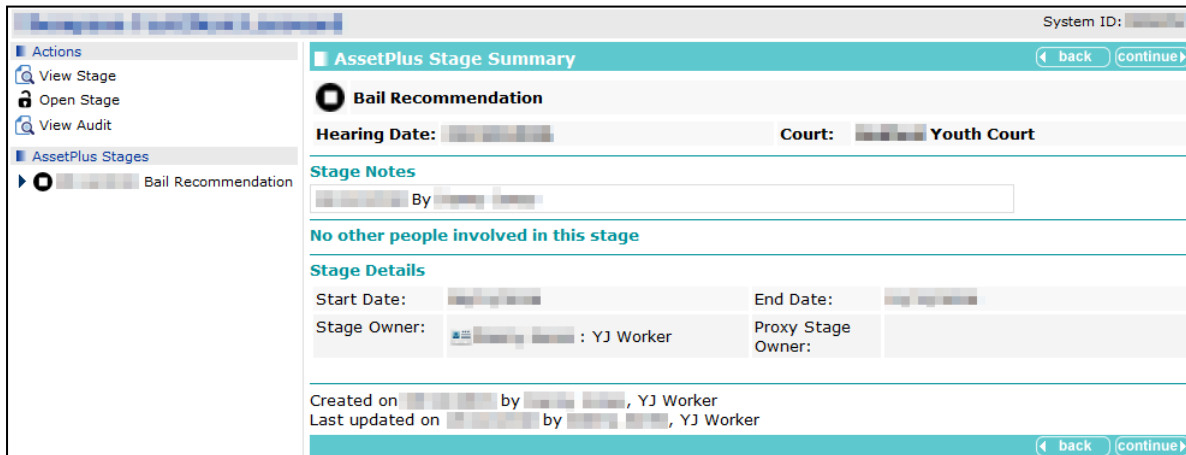

- If the currently open stage is not displayed in the **AssetPlus Stage Summary** panel, select it from the **AssetPlus Stages** panel.
- In the **Actions** menu on the left-hand side, click the **Stop Stage** hyperlink to display the **Stop AssetPlus** screen.

- Provide an explanation about why the stage was stopped in the **Notes** field.

- 6. Click the **continue** button to return to the **AssetPlus Stage Summary** screen.

The stage is now marked as stopped.

Countersignature Overview

Note: This section only relates to 3.72 onwards.
Countersignature functionality was not available before 3.72

Practitioners can choose whether to request sign off for **Explanations and Conclusions**, **Pathways and Planning**, or both sections. Practitioners can also select which user to send the request for sign off to. The choice displayed is the list of all users who have permission to sign off, regardless of whether or not they are assigned as the practitioner's manager.

Users with permission to sign off can see and action any requests for Countersignature, regardless of which users are assigned to which managers enabling sign off cover for absent colleagues.

Countersignature Homepage panel(s) will display as relevant for users who have either of the existing permissions:

- **Request sign off** (permission for practitioners)
- **Sign off AssetPlus Stage** (permission for Managers and Senior Practitioners)

For users with the '**Request sign off**' permission, the new '**My Sign Off Requests**' panel will be displayed on the Homepage as shown in the graphic below:

This panel gives the total count of sign off requests for the logged on user, according to their status.

- **Requests 'requiring changes'** refer to stages where a Manager/Senior Practitioner has opted to request changes rather than signing off the stage and also where a stage has been requested for countersignature, but the practitioner has returned to make further changes (and the request for sign off will need to be resubmitted).
- **Requests 'awaiting sign-off'** are where no further changes have been made by the practitioner since the request for sign off and further action is required by a Manager or Senior Practitioner.
- **Requests 'signed-off in the last seven days'** are requests that have been successfully sign off within the last week.

For users with the **Sign Off AssetPlus stage** permission, the new '**Countersignatures Required**' panel will be displayed on the Homepage as shown in the graphic below:

This panel gives the total count of sign off requests sent to the logged on user and also the total number required across the whole YOT (regardless of who the practitioner selected to sign them off at the point of request).

Important Note: A single user will only see both of these new panels if they have both permissions to request sign off, and to sign off AssetPlus stages. Generally, users will see one or the other of these new panels according to their permissions, and some users may not see either (e.g.: administrative users who may not have either permission to request Countersignature or sign off AssetPlus stages).

Countersignature Details screens accessed via the Homepage panels, enable users to monitor and action Countersignature activity.

Free text notes can be recorded against the stage requested for Countersignature. The notes will pass between the practitioner requesting sign off and the manager or senior practitioner reviewing and signing off or requesting changes to the stage.

The **date, time, section(s), sign-off** and **changes requested** details of each Countersignature action are displayed in a Countersignature history listed within the AssetPlus stage summary. This is fully reportable.

1. In the client record select the assetplus stage to be signed off.
2. On the **AssetPlus Stage summary** screen, click **Request Signoff** link to display the **Request sign-off** window.
3. Place a tick in the **Request sign-off** check box for the section(s) to be signed off. This can be either section or both.
4. In the **Notes** field, comments can be entered if required. These will be visible to the user you choose to sign off and to any other user with sign off permissions who may view or action the Countersignature request.
5. Clicking the **Insert** button enters a **date/time** stamp in the **Notes** field.
6. From the dropdown list under **Countersigner**, select the name of the person you want to send the sign off request to. The list displays all users who have the permissions to sign off AssetPlus stages. Although you are selecting someone to be responsible for performing the sign off, any other user with Sign off permissions can view your request and action it as required.
7. Click **continue** button to send the request to the selected person.

Note: If no Manager is selected a popup message appears when **continue** is selected.

The AssetPlus Stage Summary displays information about the request, including the date and time it was requested.

The sign-off request sent is added to the count of **'awaiting sign off'** requests in the **'My Sign Off Requests'** panel on the Homepage and also in the **'Countersignatures Required'** panel of the Homepage visible to all users with permissions to sign off AssetPlus stages.

Countersignatures Required (Homepage Panel)

Any user with Sign Off permissions can see an overview of all the Countersignature requests required of them and across the whole YOT, via the **'Countersignatures Required'** panel on the Homepage. Clicking a hyperlink within this panel presents the **'Countersignatures Required'** page.

Countersignatures required by the logged on user are displayed by default. This view can be changed to **'Countersignatures across YOT'** to see all requests made by different practitioners. This view enables the user to action a request on behalf of an absent colleague, regardless of whether or not the user is assigned as the manager of the practitioner who requested the sign off.

- In both of the above scenarios, the request for sign off will need to be resubmitted once changes are completed, so this section is for information purposes.

Important note: Requests could display under '**Awaiting sign off**' before moving to '**Changes needed and sign-off to be requested again**' without a Manager or Senior Practitioner taking any action. This will happen where the stage owner has returned to the stage and made further changes since they requested sign off. Once their editing is completed and they re-submit the sign off request, this will appear once again under '**Awaiting sign off**'.

Auditing Stage History

You can produce a record of all the changes made to the stage over a specified period of time using the stage audit function. The record is produced in XML format.

To run an audit of the stage update history:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **AssetPlus** panel, click the **Stage Name** of the required AssetPlus stage to display the **AssetPlus Stage Summary** screen.

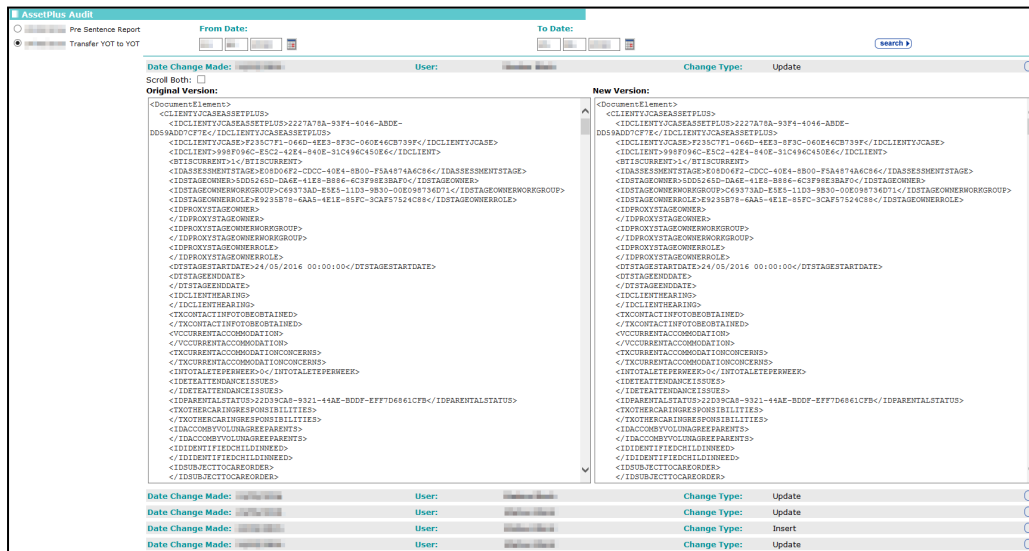

3. In the **Actions** menu, click the **View Audit** hyperlink to display the **AssetPlus Audit** screen.

4. If there are multiple stages listed, select the radio button for the required stage.
5. Enter the **From Date** and the **To Date** in dd/mm/yyyy format in the fields provided, or select the appropriate dates using the calendar icons.

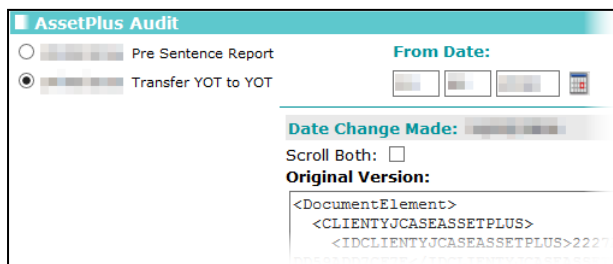

NOTE: The **From Date** must be on or after the date the stage was created.

6. Click the **search** button to display the audit.

- To display the details of a particular change, click the chevron icon to display the **Original Version** and the **Changed Version** side by side in XML format.

- To enable simultaneous scrolling so you can compare the two versions, select the **Scroll Both** radio button.

Printing and Exporting Stages

To print a section or subsection of an AssetPlus stage, you need the 'YJ Asset Plus Section Report' permission. If you are unable to print from an AssetPlus stage, contact your system administrator. You can create a printer friendly view of some or all the sections in a stage, or you can export the selected sections as a PDF. If you want to print a paper copy of the stage, it's easiest to create a printer friendly version and print from within your internet browser. If you need to email the stage details, it is easier to export the sections to PDF directly.

To print or export a PDF from a stage:

- Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
- In the **AssetPlus** panel, click the **Stage Name** of the required AssetPlus stage to display the **AssetPlus Stage Summary** screen.

15 | Intervention Programmes

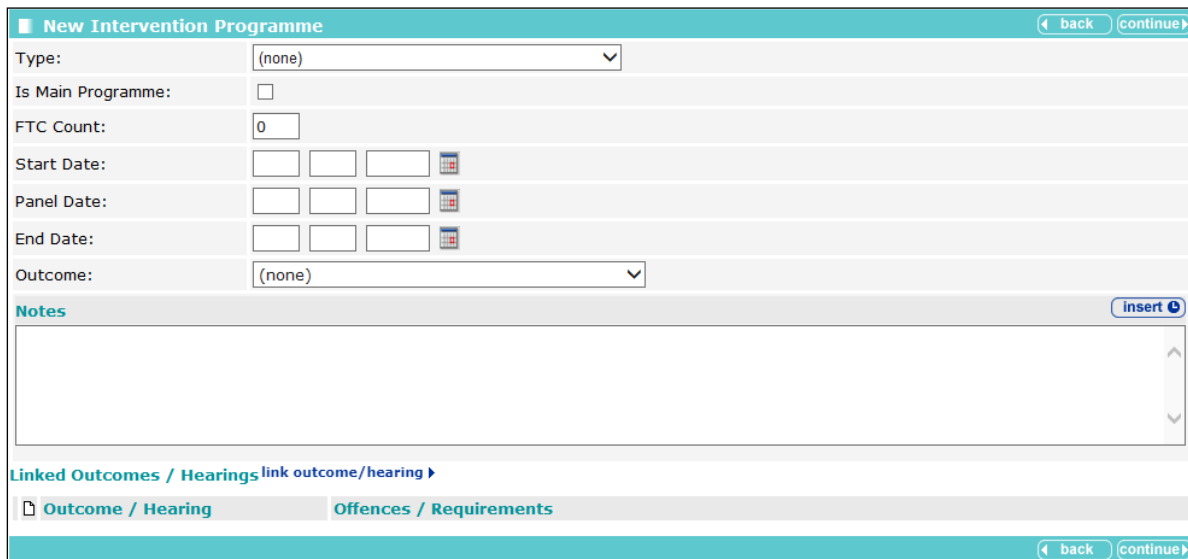

Active intervention programme records are displayed in the **Current Intervention Programmes** panel. If the client has no active interventions, the panel header is grey and reads **No Current Intervention Programmes**.

Entering a New Intervention Programme

To enter a new intervention programme:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Current Intervention Programmes** panel, click the **new** button to display the **New Intervention Programme** screen.

3. Select the **Type** of intervention from the menu.

In this section **Intensive referral order** has been added to the dropdown list. This item is mapped to Referral Orders which allows Users to differentiate the Outcome and Intervention level between Referral Orders and Intensive Referral Orders.

4. If required, select the **Is Main Programme** check box.
5. If appropriate, enter the number of times the client has failed to comply in the **FTC Count** field.

NOTE: You need the *Override FTC Count* permission to change this field.

6. Enter or select from the calendar a **Start** and **End Date**.
7. If required enter a **Panel Date**.
8. If required, select an **Outcome** from the menu.
9. Enter any relevant **Notes**.
10. If required, link any appropriate outcomes or hearings to the programme.

To link an outcome or hearing:

- a. Click the link outcome/hearing button to display the **Add Programme Requirements** dialog.

11. Click the **continue** button to save the intervention and return to the client record.

Updating Intervention Programmes

To update an intervention programme:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Current Intervention Programmes** panel, click the name of the required programme to display the **Change Intervention Programme** screen.
3. Update the required fields.
4. Click the **continue** button to save the event and return to the client record.

Deleting an Intervention Programme

To delete an intervention programme:

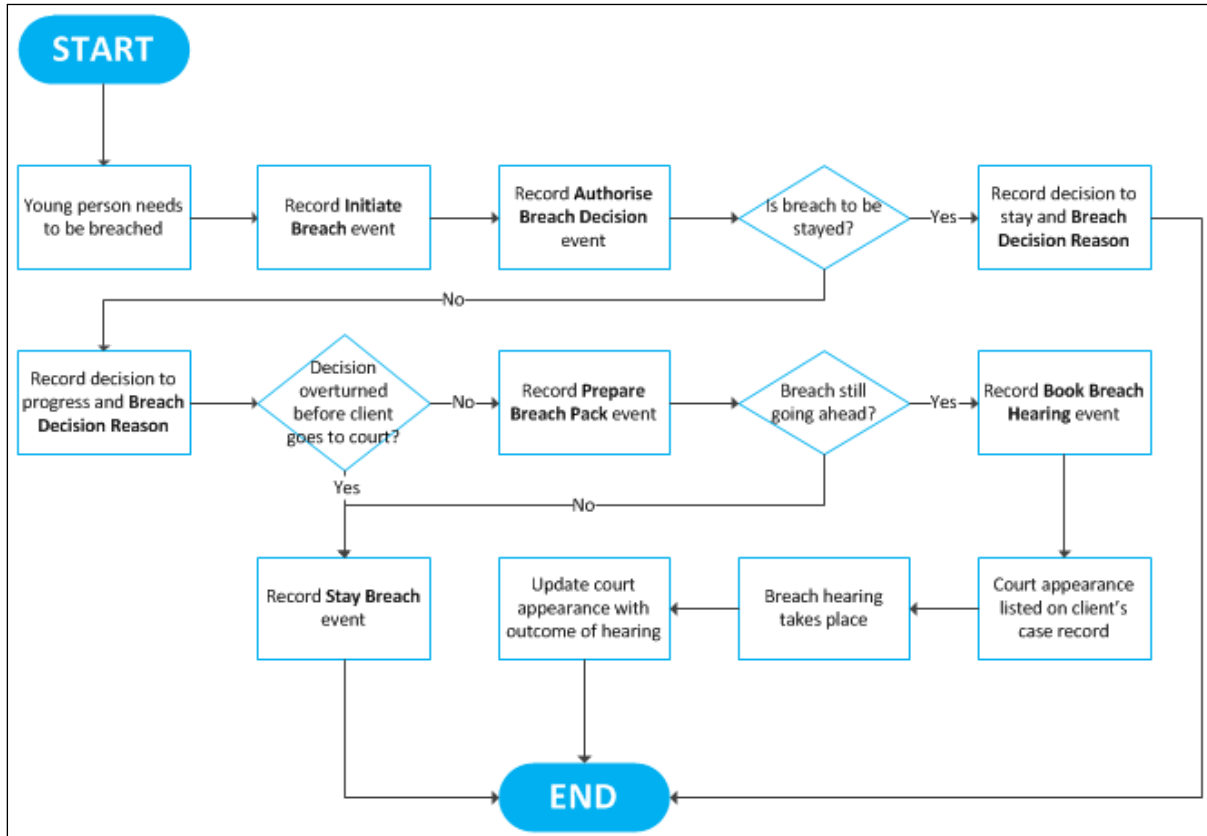

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Current Intervention Programmes** panel, click the name of the required programme to display the **Change Intervention Programme** screen.
3. In the **Change Intervention Programme** panel header, click the **delete** button.
4. A warning message is displayed. Click the **OK** button to delete the intervention programme.

WARNING: If the intervention programme is linked to an event, deleting it removes any links it had to the event. You cannot undo this. The event is not deleted.

16 | Managing Breaches

Breach Process Flowchart

Use the following flowchart to identify the steps you need to take to breach your client.

Creating a Breach Process Initiation

Breach process events occur in a particular order. As such, typing 'breach' into the **Event Type** field only displays the breach event types that are relevant at the current stage in the process. Further breach actions and tasks only become available for selection as each task in the process is recorded as a new event.

To initiate a breach:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. Create a new event. For more information on creating an event, see [Creating a New Event](#) on page 46.
3. In the **Type** field, start typing 'Initiate Breach' until it is displayed as a menu option.
4. Select **Initiate Breach** from the menu.
5. Add any further information.
6. Click the **continue** button to save the breach and return to the client record.

Creating a Breach Decision Authorisation

Once the breach has been initiated an **Initiate Breach** event is displayed in the **Events** panel, and a comment is displayed next to the related intervention that the breach is awaiting authorisation. As soon as the breach is authorised, it must be entered on the client's record to confirm that it is to go ahead.

Current Intervention Programmes						
Youth Rehabilitation Order : 12 months : ██████████ - ██████████

🕒	██████████ 16:30	1h	N	Appointment Group Session	██████████	██████████
📧	██████████ 14:19	11m		Letter Out	██████████	██████████

To authorise a breach:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. Create a new event. For more information on creating an event, see [Creating a New Event](#) on page 46.
3. In the **Type** field, begin typing 'Authorise Breach Decision' until it is displayed as a menu option.
4. Select **Authorise Breach Decision** from the menu.
5. Complete the **Compliance** field.
6. Select **Breach** from the **Breach Decision** field.
7. Select the **Breach Decision Reason**.
8. If required, explain why the decision was taken to progress the breach in the **Breach Authorisation Notes** field.
9. Click **continue** to save the event and return to the client record.

Creating a Breach Pack Preparation

Once the breach has been authorised an **Authorise Breach Decision** event is displayed in the **Events** panel, and a comment is displayed next to the related intervention that the breach is awaiting breach pack. As soon as the breach pack file is ready for court, it must be entered on the client's record.

The screenshot displays two main panels. The top panel, 'Current Intervention Programmes', lists three programs: 'Youth Rehabilitation Order : 12 months', 'Bail Support and Supervision : 40 months', and 'Conditional Caution : FTC Count 1 : Manually Breached : Awaiting Breach Pack : 365 months'. Each program has a 'Supervision' field. The bottom panel, 'Events', shows a table of events with columns for 'FTC', 'Date / Time', 'Dur', 'Attended', 'Type', and 'Who'. The events listed are: 'Authorise Breach Decision' at 14:44, 'Initiate Breach' at 14:27, 'Appointment Group Session' at 16:30 (1h duration), and 'Letter Out' at 14:19 (11m duration).

FTC	Date / Time	Dur	Attended	Type	Who
✘	14:44		N	Authorise Breach Decision	
✘	14:27		N	Initiate Breach	
🕒	16:30	1h	N	Appointment Group Session	
📄	14:19	11m		Letter Out	

To prepare a breach pack:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. Create a new event. For more information on creating an event, see [Creating a New Event](#) on page 46.
3. In the **Type** field, begin typing 'Prepare Breach Pack' until it is displayed as a menu option.
4. Select **Prepare Breach Pack** from the menu
5. Complete the **Compliance** field.
6. Click the **continue** button to save the event and return to the client record.

Creating a Breach Hearing

Once the breach pack has been prepared, a **Prepare Breach Pack** event is displayed in the **Events** panel, and a comment is displayed next to the related intervention that it is awaiting the breach hearing. As soon as the breach hearing date is known, it must be entered on the client's record.

The screenshot shows a software interface with two main sections. The top section, titled 'Current Intervention Programmes', lists three programmes: 'Youth Rehabilitation Order : 12 months', 'Bail Support and Supervision : 40 months', and 'Conditional Caution : FTC Count 1 : Manually Breached : Awaiting Breach Hearing : 5 months'. Each programme has a 'Supervision' field. The bottom section, titled 'Events', shows a table with 5 events. The table has columns for 'FTC', 'Date / Time', 'Dur', 'Attended', 'Type', and 'Who'. The events listed are: 'Prepare Breach Pack' (14:59, N), 'Authorise Breach Decision' (14:44, N), 'Initiate Breach' (14:27, N), 'Appointment Group Session' (16:30, 1h, N), and 'Letter Out' (14:19, 11m).

FTC	Date / Time	Dur	Attended	Type	Who
✘	14:59		N	Prepare Breach Pack	
✘	14:44		N	Authorise Breach Decision	
✘	14:27		N	Initiate Breach	
✔	16:30	1h	N	Appointment Group Session	
📧	14:19	11m		Letter Out	

To create a breach hearing record:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. Create a new event. For more information on creating an event, see [Creating a New Event](#) on page 46.
3. In the **Type** field, begin typing 'Book Breach Hearing' until it is displayed as a menu option.
4. Select **Book Breach Hearing** from the menu.
5. Complete the **Compliance** field.
6. Enter the hearing date in the **Date** field.
7. Click the **continue** button to save the event and return to the client record.

Updating a Breach Hearing

Once the breach hearing has been listed, a court appearance is created in the **Court Appearances** panel. This is linked to the original breach offence. After the breach hearing has taken place, you need to update the court appearance record and the original offence record.

For more information on updating court appearances, see [Editing Court Appearances](#) on page 57.

For more information on updating offence records, see [Updating an Existing Offence](#) on page 39.

NOTE: A **Breach of Order or Licence Conditions** offence can be recorded at any point in the process, within the **Offences** panel on the young person's case record. For more information on creating offences, see [Entering a New Offence](#) on page 37.

Staying a Breach

Stayed breaches are recorded, but not processed. The way in which a breach is stayed depends on the point in the process in which it occurs. Stays can only be recorded until a **Book Breach Hearing** event is created.

To confirm that the breach is to be stayed:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. Create a new event. For more information on creating events, see [Creating a New Event](#) on page 46.
3. Begin entering the word 'Breach' into the **Type** menu to display the available breach options.
4. If **Authorise Breach Decision** is displayed in the menu:

- a. Select **Stay Breach** from the menu.
 - b. If required, select any related **Open Pre Court Decisions**.
 - c. Enter any information about why the breach is being stayed in the **Stay Breach Notes** field.
6. If required, amend the **Date** and **Start** fields.
 7. If required, select a **YJ Worker** from the menu.
 8. Select the appropriate **Compliance** radio button.
 9. Enter any other information in the relevant fields.
 10. Click the **continue** button to save the event and return to the client record.

17 | New Referrals

If you refer a client to a third party, you must enter this in the **Referrals** panel even if the referral is immediately or subsequently declined by the third party. If a client has no previous referrals, the panel header is grey and reads **No Referrals**.

Referrals: 1 referral						filter	new
Referred	Referred By	Referred To	Category	Intervention Programme	Current Stage

Creating a New Referral

To create a new referral:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Referrals** panel, click the **new** button to display the **New Referral** screen.

3. Select the **Intervention Programme**.
4. If required, amend the **Referral Date** and **Referred By** fields.
5. If the person to whom your client has been referred is known on Youth Justice, enter their name in the **Referred To** field and select the appropriate person from the menu.
6. If the person to whom your client has been referred is not already known on Youth Justice, click the **new additional worker** button to enter their details manually. For more information on adding new workers, see step 4 of [Allocating Workers](#) on page 35.
7. Select the referral reason from the **Category** menu.
8. If required, add any further information in the **Notes** field.
9. To record the third party response:
 - a. Click the **add** button to display the **Referral Stage** dialog.

- b. If required, amend the date.
- c. Select the response from the **Stage** menu.
- d. Click the **continue** button to save the response and return to the **New Referral** screen.

- Click **continue** to save the referral and return to the client record.

Updating a Referral

To update a referral:

- Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
- In the **Referrals** panel, click the relevant date in the **Referred** column to display the **Change Referral** screen.

- Click the **add** button to display the **Referral Stage** dialog.

- If required, amend the date.
- Select the appropriate referral stage from the **Stage** menu.
- Click the **continue** button to save the stage and return to the **Change Referral** screen.
- If required, add any additional information in the **Notes** field.
- Click the **continue** button to save the referral and return to the client record.

18 | Recording Victims

For client offences where a victim was involved, you must link the victim to the relevant offence. The victim must be in the Youth Justice system in order to be linked to an offence. The **Victim** record must be updated as reparations processes progress. Victims are displayed in the **Victims** panel. If there are no victims on the client record, the panel header is grey and reads **No Victims**. Once a victim has been added, the panel header is turquoise and titled **Victims**.

Adding a Victim to an Offence

To add a victim:

1. Access the client record to which you want to add a victim. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Victims** panel, click the **new** button to display the **New Case Victim** screen.

3. Start entering the victim's name into the **Victim** field. A list of victims who match the entered text and are already recorded in the Youth Justice system is displayed.

4. To add a victim not already recorded in the Youth Justice system:
 - a. Click the **new victim** hyperlink to display the **Victim** dialog.

- b. Enter all known information.
 - c. To enter the address:
 - i. Complete the **Post Code**.
 - ii. Enter the house number and street name in the **Address Line** field.
 - iii. Click the **find address** button.
 - iv. Select the appropriate address from the **Addresses Found** menu.
 - d. Click the **continue** button to save the information and return to the **New Case Victim** screen.
5. To add a victim already recorded in the Youth Justice system:
 - a. Start entering the victim's name into the **Victim** field. A list of victims who match the entered text and are already recorded in the Youth Justice system is displayed.
 - b. Select the victim from the **Victim** list.
 - c. Click the **+** icon to add the victim to the record.
6. Complete the relevant fields.
7. To add an intervention type:
 - a. From the **RJ Intervention Types** drop-down, select the required intervention.
 - b. Click the **+** icon to add it to the victim record.
 - c. If required, amend the **Date**.

3. Update the relevant information.
4. To add multiple **RJ Intervention Types**:
 - a. Select the intervention from the **RJ Intervention Type** menu.

- b. Click the **+** icon to add it to the record.
- c. Repeat steps a-b as necessary.
5. Click the **continue** button to save the updated information and return to the client record.

NOTE: If the intervention is not available in the **RJ Intervention Type** menu, contact your system administrator to update the menu options.

Deleting a Victim Record

Users with the “YJ Case – Victim - Delete” permission can delete a victim record. Deleting a victim record removes all victim details from Youth Justice. Deleting a victim record also removes all mention of the victim from any incidents to which it had previously been attached.

1. From the **IYSS Links** section of the homepage, select the Victim Search hyperlink to display the **Victim Search** panel.

2. Enter the search criteria for the victim you want to delete, and click the **search** button. Any victims who meet the search criteria are displayed.

Name	Reference Number	Postcode	Organisation Name
[Redacted]	3		N/A

3. Click the victim’s name to display their details.

4. In the **Actions** menu, click the **Delete Victim** hyperlink to display a confirmation dialog.
5. Click the **OK** button to remove all victim details from the system.

Anonymising a Victim Record

Users with the “YJ Case – Victim - Anonymise” permission can anonymise a victim record. Anonymising a record removes any identifying information about the victim. The only details that are retained are the worker that is allocated to the victim, the victim’s type (e.g. a person or a business) and the Youth Justice specific number allocated to the victim.

1. From the **IYSS Links** section of the homepage, click the **Victim Search** hyperlink to display the **Victim Search** panel.

Recording Victims

The screenshot shows the 'Victim Search' form. It has a teal header with 'Victim Search' and 'back' and 'continue' buttons. Below the header is a 'Search Victim' section with four input fields: 'Surname:', 'Forename', 'Organisation Name:', and 'Victim Reference Number'. A 'search' button is located to the right of the 'Forename' field. At the bottom of the form, there are 'back' and 'continue' buttons.

2. Enter the search criteria for the victim you want to anonymise, and click the **search** button to display any victims who meet your search criteria.

The screenshot shows the 'Victim Search' results page. It has a teal header with 'Victim Search' and 'back' and 'continue' buttons. Below the header is a 'Search Victim' section with the same four input fields as the previous screenshot. The 'Forename' field contains the letter 'b'. A 'search' button is to the right. Below the search fields is a table with the following columns: 'Name', 'Reference Number', 'Postcode', and 'Organisation Name'. The table contains one row with a redacted name, the number '3' in the 'Reference Number' column, and 'N/A' in the 'Organisation Name' column. At the bottom of the form, there are 'back' and 'continue' buttons.

3. Click the victim's name to display their details.

The screenshot shows the 'Victim Summary' page for Reference ID: 00000003. It has a teal header with 'Victim Summary' and a 'change' button. On the left, there is an 'Actions' menu with 'Delete Victim' and 'Anonymise Victim' options. The main content area shows the following details: 'Type: Person', 'Allocated Worker: [redacted]', 'Date of Birth: [redacted]', and 'Ethnicity: WWEL - White Welsh'. There are icons for email, phone, and social media. Below this, there is a section for 'Victims Cases: 1 case' with a 'more' dropdown and a 'new' button. Below that, there are sections for 'No Events' and 'No Documents and Notes', each with a 'new' button.

4. In the **Actions** menu, click the **Anonymise Victim** hyperlink to display a confirmation dialog.
5. Click the **OK** button to remove any identifying information.

The screenshot shows the 'Victim Summary' page for Reference ID: 00000003 after anonymisation. It has a teal header with 'Victim Summary' and a 'change' button. On the left, there is an 'Actions' menu with 'Delete Victim' and 'Anonymise Victim' options. The main content area shows the following details: 'Type: Person', 'Allocated Worker: Danny Jones', and 'Ethnicity: WWEL - White Welsh'. There are icons for email, phone, and social media. Below this, there is a section for 'Victims Cases: 1 case' with a 'more' dropdown and a 'new' button. Below that, there are sections for 'No Events' and 'No Documents and Notes', each with a 'new' button.

19 | Parenting Orders

Parents and guardians are recorded in the **Carer Contacts** panel. If there are no carers listed in this panel, or if the required carer is not yet listed, they must be entered into IYSS before a parenting order can be created. The **Carer Contacts** panel is grey and reads **No Carer Contacts** if none have been recorded.

3. Enter the new information.
4. Make sure you reselect the **Parent / Carer** responsible.
5. Click the **continue** button to save the intervention and return to the client record.

Accessing Parent/Carer Records

The **parent carer** screen contains basic personal details, including a history of addresses, and contact details. It displays any linked interventions, events and documents or notes. You can access parent or carer with intervention records in two ways.

To access the record from **my homepage**:

1. In the **IYSS Links** panel, click the **Parents with Interventions Search** hyperlink to display the **Parent / Carer Search** screen.
2. Enter the **Name** or **Reference Number** of the required parent or carer.
3. Click the **Search** button to display a list of matching parents or carers.
4. Select the required **parent / carer** from the menu to display the **Parent / Carer Summary** screen.

NOTE: A parent/carer record is created automatically when a parenting intervention is created for a young person.

If the client has a **Parenting Intervention** on record, you can open the appropriate **parentcarer** screen from the client record. To do this:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Parenting Interventions** panel, click the **Person** icon next to the name of the required parent or carer to display the **parentcarer** screen.

Person icon

NOTE: Clicking the name and relationship of the parent in the **Parent / Carer** column displays the **Change Parenting Intervention** screen, not the **parentcarer** record.

Recording a New Event for a Parent/Carer

Events are created and linked to the parent/carers record in the same way as they are for the client record. The **Parenting Interventions' Events** panel is accessed through the **parent / carer** screen. For more information about adding an event, see [Creating a New Event](#) on page 46.

The screenshot shows the 'parentcarer' interface. At the top, there is a navigation bar with 'my homepage | clients | providers | opportunities | ys activities' and a 'log out' button. Below this is a breadcrumb trail: 'my homepage > client > youth justice case > parentcarer'. A 'Reference ID:' field is visible on the right. The main content area is divided into several sections:

- Parent / Carer Summary:** Includes a 'change' button and a profile picture placeholder.
- Parenting Interventions:** Shows '1 parenting intervention' with a 'more' dropdown and a 'new' button.
- Table:** A table with columns: Client, Relationship, Intervention Programme, and Parenting Activities. The first row shows a client with the relationship 'Father' and an intervention programme of 'Parenting Order : 6 months : [redacted]'.
- No Events:** A section with a 'new' button, highlighted with a red box.
- No Documents and Notes:** A section with 'new' buttons for documents and notes.

Adding Documents to a Parent/Carer Record

Documents can be added to a parent/carers record in the same way as they are attached to a young person's record. The **Parenting Interventions' Documents and Notes** panel is accessed through the **parentcarer** screen. For more information, see [Adding Documents to a Young Person's Record](#) on page 126.

This screenshot is identical to the one above, showing the 'parentcarer' interface. The 'No Documents and Notes' section at the bottom is highlighted with a red box, indicating where to click to add new documents or notes.

Editing Parent/Carer Details

To update parent or carer details, or allocate a worker to them:

1. Access the required parent/carers record. For more information on doing this, see [Accessing Parent/Carer Records](#) on page 104.
2. In the **Parent / Carer Summary** panel, click the **change** button to display the **Change Parent / Carer Contact** screen.

3. If required, select an **Allocated Worker** from the menu.
4. If required, update all relevant fields.
5. To add a new address:
 - a. Click the **find address** button to display a new **Change Carer Contact** screen.

- b. Enter the Post Code
 - c. In the **Address Line** field, enter the house number and street name.
 - d. Click the **find address** button to display a list of options in the **Addresses found** field
 - e. Select the appropriate address.
6. Click the **continue** button to add the address to the record.
 7. Click the **continue** button to save the record and return to the **Parent / Carer Summary** screen.

Adding Multiple Editors to an Assessment

To give additional Youth Justice users editorial permission for a particular assessment asset, you must be either an author or member of a security group with “YJ Assessments – Change Editors” permissions granted.

To assign multiple editors:

1. Ensure you have the required permission to make the changes.
2. Access the required Assessment Summary. For more information on this, see [Viewing and Editing an Asset Assessment](#) on page 110.
3. In the **Actions** menu, click the **Additional Editors** hyperlink to display the **Additional Editors** panel.

4. Select the required editor from the **User** menu.
5. Click the **add** button to add them to the list of editors.
6. Click the **continue** button to save the update and return to the client record.

Removing Editors from an Assessment

To revoke a Youth Justice user's editorial permission for a particular assessment asset, you must be either the author or a member of a security group with "YJ Assessments – Change Editors" permissions granted.

To remove editors:

1. Ensure you have the required permission to make the changes.
2. Access the required **Assessment Summary**. For more information on this, see [Viewing and Editing an Asset Assessment](#) on page 110.
3. In the **Actions** menu, click the **Additional Editors** hyperlink to display the **Additional Editors** panel.

4. Click the **x** icon next to the name of the editor you want to remove.
5. Click the **continue** button to save the update and return to the client record.

21 | Recording a Risk of Serious Harm

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Assessments, Plans and Reviews** panel, click the **new** button to display the **Record New Assessment** screen.

3. Select the **Asset Risk of Serious Harm** radio button.
4. Click the **continue** button to display the **asset assessment** screen.

5. If required, amend the **Assessment Date**.
6. Complete all relevant fields on the screen.
7. Click the **continue** button to proceed to the next element. A green ✓ indicates that the element is complete. A red x indicates that there are still fields requiring completion within the element.

8. Repeat steps 6 and 7 until the **Conclusion** is reached.
9. Select the relevant **Current risk of serious harm to others** radio button.
10. Select the appropriate **MAPPAs Level**.
11. Click the **continue** button to save the assessment and display the **Assessment Review** screen.

22 | RMP and VMP Completion

To complete a risk or vulnerability plan:

1. Access the required assessment. For more information on opening asset assessments, see [Viewing and Editing an Asset Assessment](#) on page 110.

2. In the **Actions** menu on the left-hand side, select the type of plan you need to create:
 - To create a risk management plan, click the **New Risk Mgt Plan** hyperlink to display the **Add : Risk Management Plan** screen.
 - To create a vulnerability management plan, click the **New Vulnerability Mgt Plan** hyperlink to display the **Add : Vulnerability Management Plan** screen.

NOTE: The **Add : Risk Management Plan** and the **Add : Vulnerability Management Plan** screens are structured the same.

3. Complete the relevant fields and enter the **Review Date**.
4. Click the **continue** button to save the plan and return to the client record.

NOTE: To duplicate a plan, see step 5 of [Updating an Assessment](#) on page 115. Ensure that all information in the duplicate is updated to reflect the current date and case stage. All new plans must be created from the duplicate. When duplicating a plan to create a new one, do not alter the original.

23 | Gangs and Relationships

All gang affiliation information is accessed through the **Gangs and Relationships** panel. If there are no known gang affiliations, the panel header is grey, and reads **No Gangs and Relationships**.

9. Repeat steps 1 to 7 to link the new associate back to your client.

24 | Adding Characteristics to a Young Person's Case Record

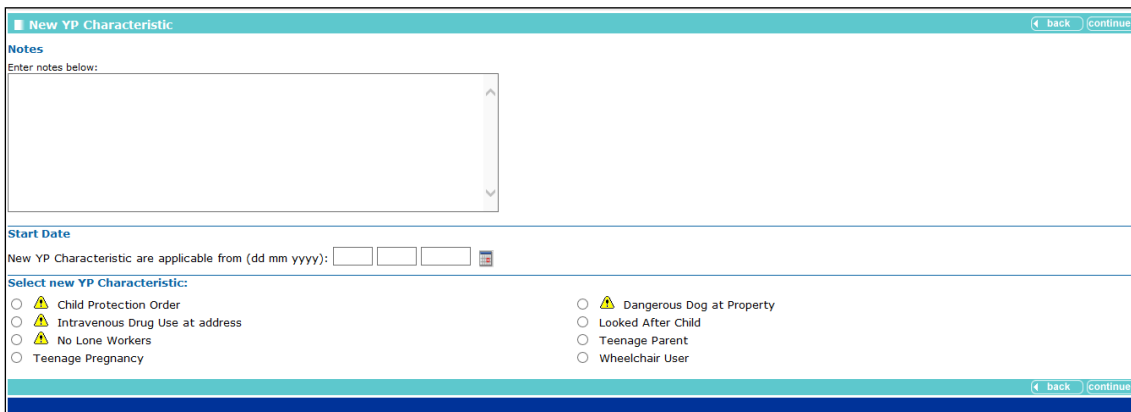

Characteristics are listed within the **YP Characteristics** panel. Until your client has any characteristics recorded, the panel header is grey and reads **No YP Characteristics**. If you require new characteristics creating to suit a particular case, contact your System Administrator. A yellow warning sign is displayed next to key characteristics. This produces an alert that is displayed at the top of the client record.

Adding New Characteristics

To add new characteristics:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **YP Characteristics** panel, click the new button to display the **New YP Characteristic** screen.

3. If required, complete the **Notes** and **Start Date** fields.
4. Select the appropriate radio button for the characteristic.
5. Click the **continue** button to save the characteristic and return to the client record.

Removing a Characteristic

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **YP Characteristics** panel, click the **change** button to display the **Change YP Characteristic** screen.

The screenshot shows a web interface for editing a characteristic. The title bar is teal and contains the text 'Change YP Characteristics' and two buttons: 'back' and 'continue'. Below the title bar, there is a link 'add new characteristics >'. The main content area is white and displays the characteristic 'Dangerous Dog at Property' with a yellow warning icon. Below this, there is a 'Value:' dropdown menu set to 'Yes', and 'Start Date' and 'End Date' fields with calendar icons. At the bottom right, there are 'back' and 'continue' buttons.

3. Enter the **End Date** for the required characteristic.
4. Click the **continue** button to deactivate the characteristic and return to the client record.

25 | End of Involvement Referrals

End of involvement referrals are listed in the **End of Involvement Referral** panel. If a client has no such referrals, the panel header is grey and reads **No End of Involvement Referrals**. Recording an end of involvement referral does not automatically message the Referred To user. It is to provide an audit trail for post-statutory external referrals.

To record an end of involvement referral:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **End of Involvement Referrals** panel, click the **new** button to display the **New End of Involvement** screen.

 A screenshot of the 'New End of Involvement Referral' form. The form has a teal header with the title and 'back' and 'continue' buttons. The main area contains several fields: 'Intervention Programme:' with a radio button for 'Referral Order'; 'Referral Date:' with a date picker; 'Referred By:' with a dropdown menu showing '(none)'; and 'Referred To:' with a text input field. There is also a 'Notes:' field with an 'insert' button. At the bottom, there are 'back' and 'continue' buttons.

3. Complete all relevant fields.
4. Click the **continue** button to save the referral and return to the client record.

26 | Adding Documents to a Young Person’s Record

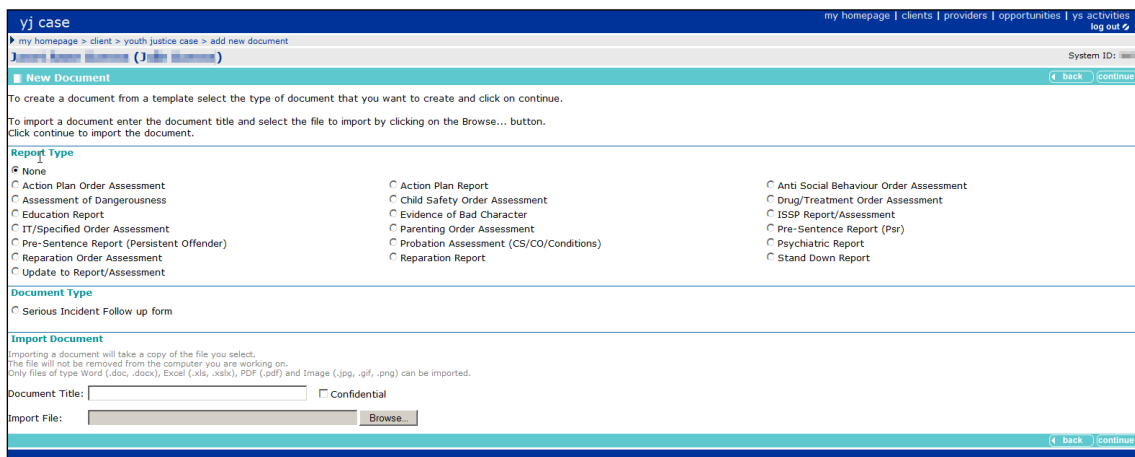

Adding a New Document

Documents are added and accessed through the **Documents, Notes, Forms & Requests** panel.

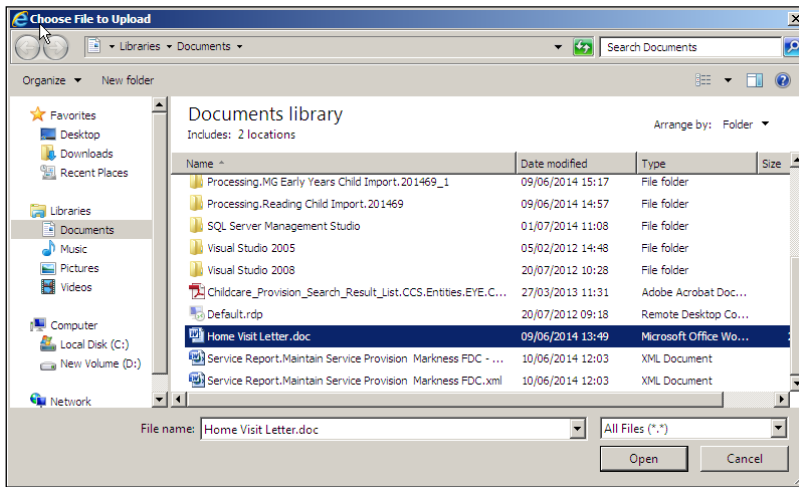

To add a new document:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Documents, Notes, Forms & Requests** panel, click the **new document** button to display the **New Document** screen.

3. Select the **Report** or **Document Type**.
4. Enter a name in the **Document Title** field.
5. If required, select the **Confidential** check box.

6. Choose a file to attach:
 - a. Click the **Browse** button to display the **Choose File to Upload** dialog.

- b. Locate the required document on your computer.
 - c. Double-click the document title to upload it to Youth Justice.
7. Click the **continue** button to attach the document and return to the client record.

Viewing a document

To view a document:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.

Adding Documents to a Young Person’s Record

2. In the **Documents, Notes, Forms & Requests** panel, click the name of the required document to display a panel of document actions.

The screenshot shows a web interface titled "Education Report - Confidential". It contains instructions: "The options for an imported document are explained below. Select the option you require and click on 'continue'." There are four radio button options: "View Document", "Change Document", "Replace Document", and "Delete Document". The "View Document" option is selected. Below the "Replace Document" option, there are input fields for "Document Title" (containing "Education Report"), "Report Type" (a dropdown menu with "Education Report" selected), and "Import File" (with a "Browse..." button). A "Confidential" checkbox is also present and checked. Navigation buttons for "back" and "continue" are at the top and bottom right.

3. Select the **View Document** radio button.
4. Click the **continue** button. An options dialog is displayed.

The screenshot shows an Internet Explorer file dialog box titled "What do you want to do with documentexternaloptions.docx?". It lists the file's source as "From: [redacted]". Three options are available: "Open" (with a warning "The file won't be saved automatically."), "Save", and "Save as". A "Cancel" button is at the bottom right.

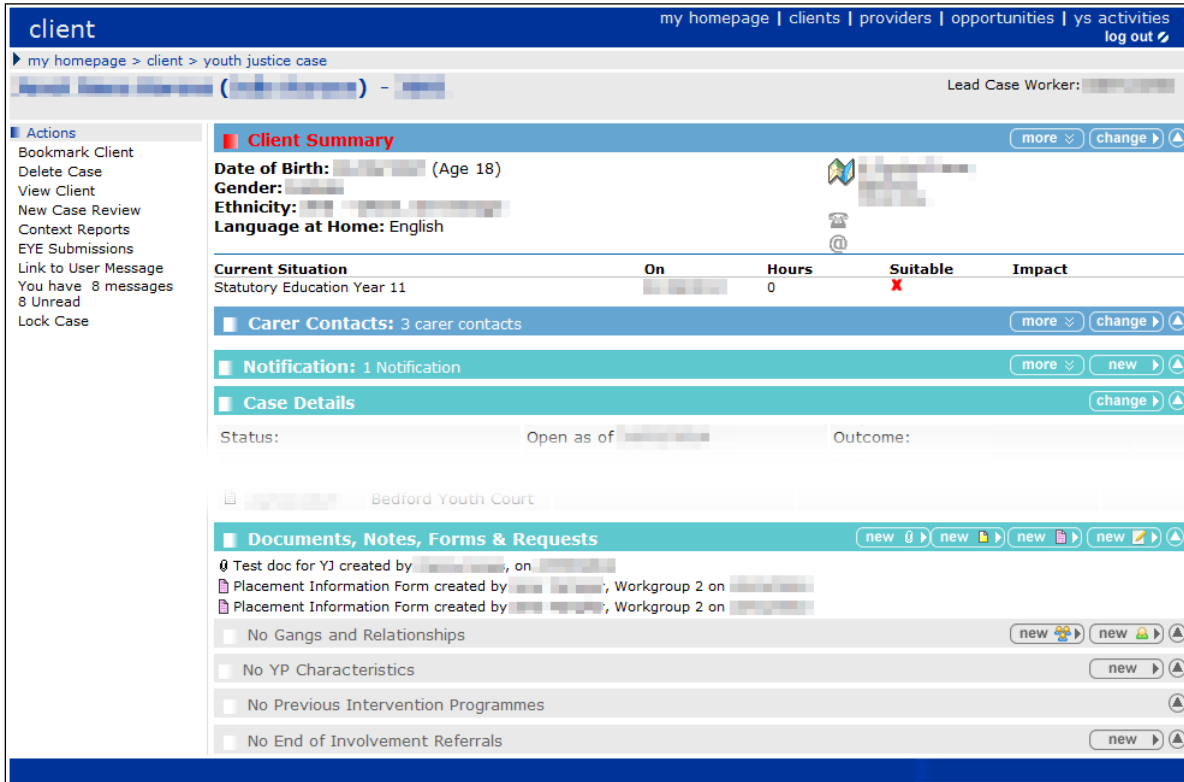

5. Click the required option:
 - **Open** displays the document without saving.
 - **Save** downloads and saves the document to your default downloads folder under the name displayed in the dialog, in this example “documentexternaloptions.docx”.
 - **Save as** displays the **Save As** dialog enabling you to change the name of the document and where it is saved.

Editing a document

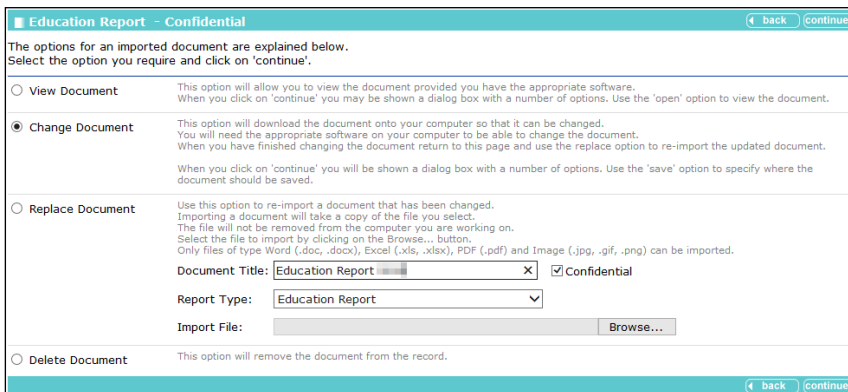

To edit a document:

NOTE: This option is not displayed for image files.

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.

2. In the **Documents, Notes, Forms & Requests** panel, click the name of the required document to display a panel of document actions.

3. Select the **Change Document** radio button.
4. Click the **continue** button. You are asked whether you want to open or save the document.

5. Click **Open**, or select an option from the **Save** menu to download the document to your computer.
6. If the document does not open automatically, locate it on your machine and open it manually.

Adding Documents to a Young Person's Record

7. Make the necessary changes to the document and save it.
8. Re-upload the document to the system using the **Replace Document** function. For more information, see [Replacing a document](#) on page 130.

Replacing a document

To replace a document:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.

The screenshot shows a web interface for a client record. The top navigation bar includes 'client', 'my homepage | clients | providers | opportunities | ys activities', and 'log out'. The breadcrumb trail is 'my homepage > client > youth justice case'. The main content area is titled 'Client Summary' and includes fields for 'Date of Birth: (Age 18)', 'Gender', 'Ethnicity', and 'Language at Home: English'. Below this is a table for 'Current Situation' with columns 'On', 'Hours', 'Suitable', and 'Impact'. The 'Hours' column shows '0' and the 'Suitable' column has a red 'X'. Other sections include 'Carer Contacts: 3 carer contacts', 'Notification: 1 Notification', and 'Case Details'. The 'Documents, Notes, Forms & Requests' section is highlighted and contains a list of documents: 'Test doc for YJ created by...', 'Placement Information Form created by...', and 'Placement Information Form created by...'. There are 'new' buttons for each document.

2. In the **Documents, Notes, Forms & Requests** panel, click the name of the required document to display a panel of document actions.

The screenshot shows a document action panel titled 'Education Report - Confidential'. It includes a 'back' button and a 'continue' button. The text reads: 'The options for an imported document are explained below. Select the option you require and click on 'continue''. There are four radio button options: 'View Document', 'Change Document', 'Replace Document' (which is selected), and 'Delete Document'. The 'Replace Document' option includes a description: 'Use this option to re-import a document that has been changed. Importing a document will take a copy of the file you select. The file will not be removed from the computer you are working on. Select the file to import by clicking on the Browse... button. Only files of type Word (.doc, .docx), Excel (.xls, .xlsx), PDF (.pdf) and Image (.jpg, .gif, .png) can be imported.' Below this are fields for 'Document Title' (Education Report), a 'Confidential' checkbox (checked), a 'Report Type' dropdown menu (Education Report), and an 'Import File' field with a 'Browse...' button. There are 'back' and 'continue' buttons at the bottom.

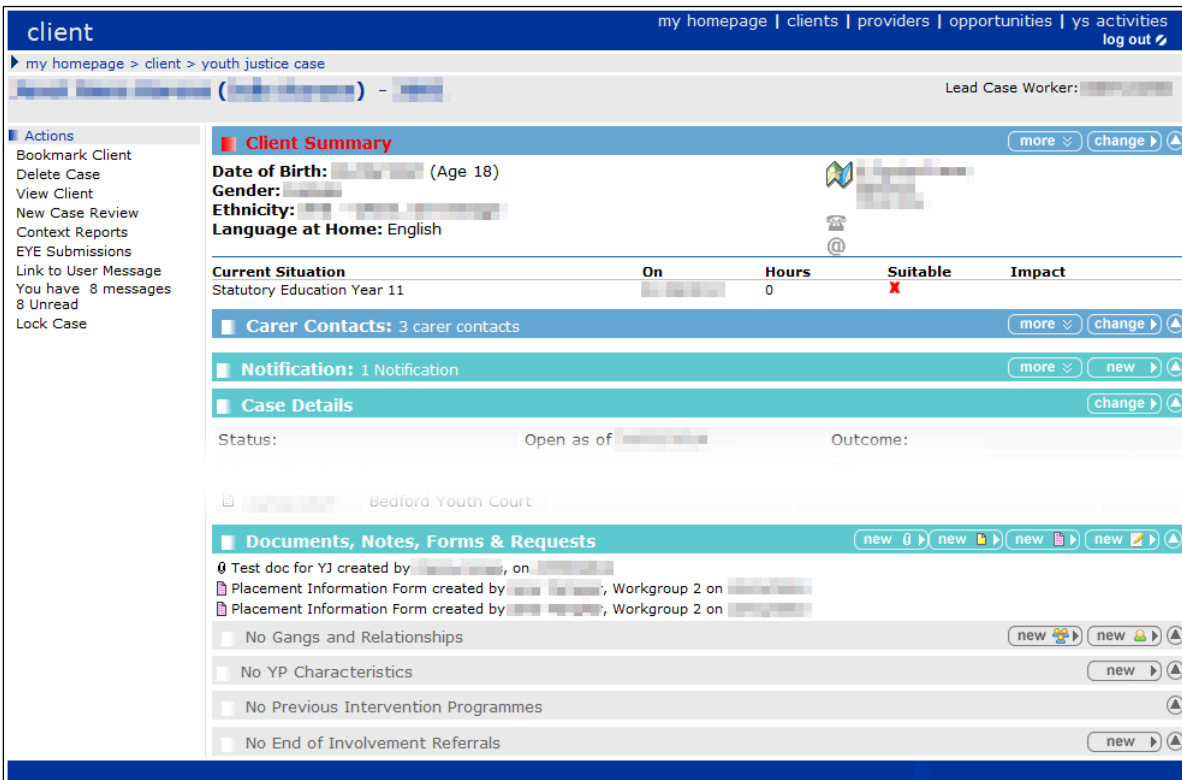

3. Select the **Replace Document** radio button.
4. If required, amend the **Document Title**.
5. If required, select or deselect the **Confidential** check box.
6. Select the **Report Type**.

7. Click the **Browse** button to display the **Choose File to Upload** dialog.
8. Locate the new document on your computer.
9. Double-click the document title to upload it to Youth Justice.
10. Click the **continue** button to complete the process.

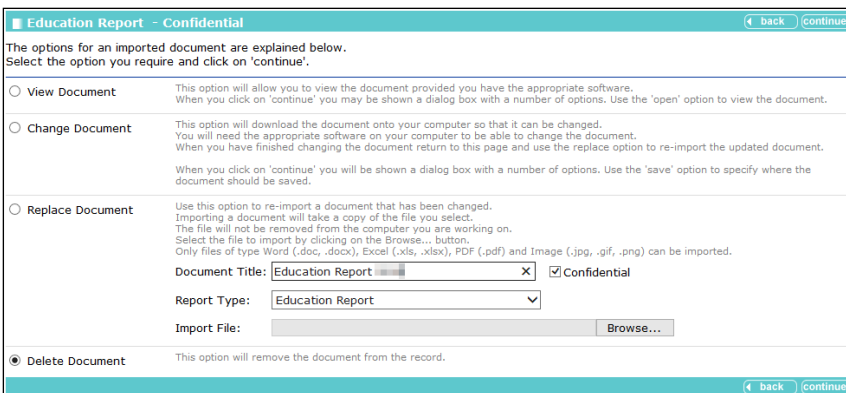

Deleting a document

To delete a document:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.

2. In the **Documents, Notes, Forms & Requests** panel, click the name of the required document to display a panel of document actions.

3. Select the **Delete Document** radio button.

Adding Documents to a Young Person's Record

4. Click the **continue** button. A warning dialog is displayed.

5. Click the **OK** button. The document is deleted and you are returned to the client record.

27 | Appointment Timetables

You can print or export a timetable of appointments you have with a certain client. These reports can list all future appointments, or for a user-determined period of time.

To create an appointment timetable:

1. Access the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **Actions** menu, click the **Context Reports** hyperlink to display the **Print / Export Template** screen.

3. In the **Method** list, select the radio button for the desired template output.
4. To create a timetable of all future appointments, in the **Report Templates** list select the **YJ Appointment Timetable**.
5. To create a timetable for a specified number of days in the future:
 - a. Select the **YJ x Days Appointment Timetable** radio button.
 - b. Click the **continue** button to display a parameters screen.

- c. Enter the number of days for which you want to display the appointments in the **Enter Days in Future** field.
6. Click the **continue** button to process the report.

If you selected the **Print Template** option, a .pdf document opens in the web browser. You can choose to save it to your computer or print it straight from the web browser.

If you selected the **Export to Word** or **Export to Excel** radio buttons, you are presented with the option to open the file without saving it, or to save it to your computer.

28 | YJ Case Manager Tool

The **YJ Case Manager Tool** allows a user to view their caseload organised by scale or by alerts. It also enables managers to view their workers' caseloads.

To view caseload:

1. Log into **my homepage**.
2. In the **IYSS Links** panel, click the **YJ Case Manager Tool** to display the **Caseload Summary** screen by caseload view.

29 | Sending AssetPlus to YJB Placements

Submitting AssetPlus - Overview

WARNING! Before using this facility, you must run a series of test submissions. Further guidance from Capita and the YJB on the testing process will be issued. Do not attempt to submit a stage to the YJB until after you complete the test submission process.

The Youth Justice Application Framework (YJAF) enables you to transfer AssetPlus stages to the YJB placements team for young people who have been remanded or sentenced to custody.

With the introduction of Case Transfers and in line with YJB requirements, YOTs will no longer submit only the latest AssetPlus stage to the YJB Placements team.

- YOTs must initiate a request for a 'Caretaking' Case Transfer with YJB Placements, which will submit all completed stages for the young person to the YJB
- YJB Placements will 'accept' the request for the Case Transfer and a 'Caretaking relationship' will be established between the YOT and YJB Placements.

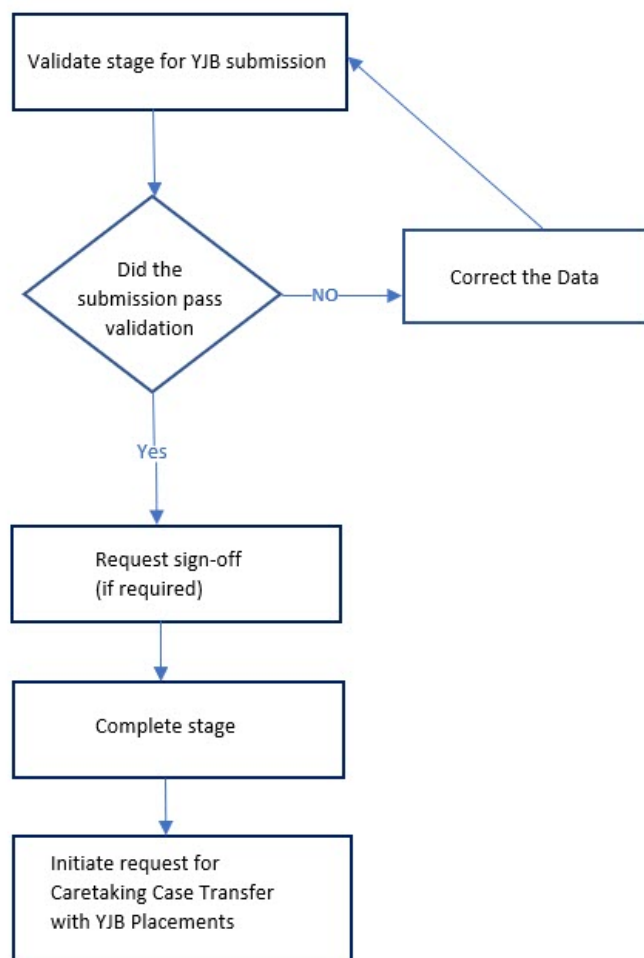

Important Note:

If the young person is remanded or sentenced to custody, the caretaking relationship with YJB Placements will remain in place, and the YJB will forward AssetPlus submissions to the relevant secure establishment for the duration of the caretaking relationship.

- While the caretaking relationship is in place, any new AssetPlus stages completed will be submitted to the YJB as a single stage update.
 - The caretaking relationship will need to remain in place until:
 - It is established that the young person does not require a bed in custody
 - OR
 - The young person is released from custody

Once the caretaking relationship is no longer needed, the YOT will 'end' the caretaking relationship using the 'End Transfer' button on the AssetPlus panel of the young person's case, and the YJB Placements team will also 'end' the relationship in YJAF.

Before submitting AssetPlus to YJB placements team, you must first complete the following steps as shown in flowchart below:

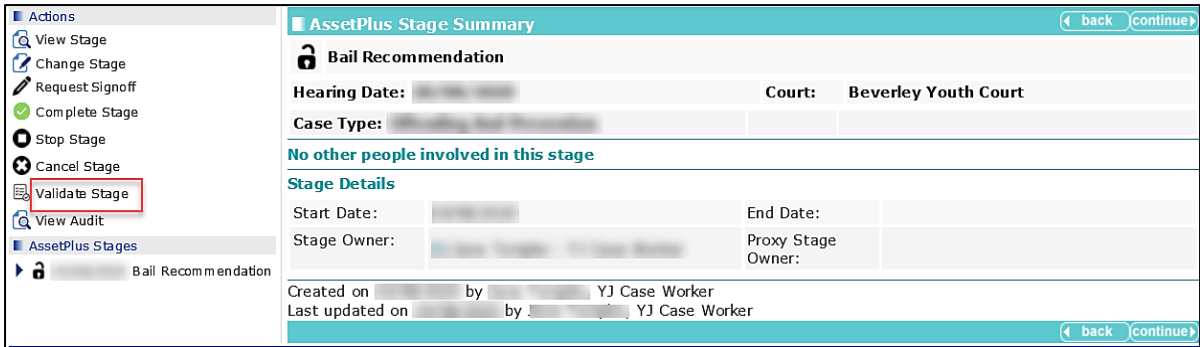

The YJB submission process is only available for clients with a completed AssetPlus stage, and is only displayed to users who have the permissions to initiate Case Transfer requests.

Validating a stage for YJB submission

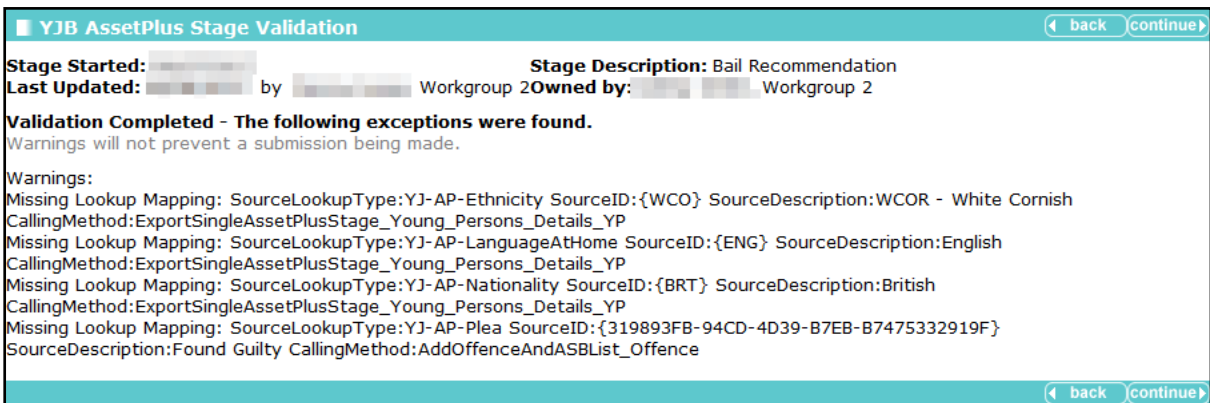

You can check the validity of AssetPlus stages prior to submitting them to the YJB. Validating a stage enables you to address any data issues before submitting. Although you can validate the data in a stage at any time, you cannot submit a stage to the YJB until the stage has been completed.

To validate a stage for YJB submission:

1. Open the required client record. For more information, see [Accessing Client Records](#) on page 19.
2. In the **AssetPlus** panel, click the **Stage Name** of the required AssetPlus stage to display the **AssetPlus Stage Summary** screen.

- In the **Actions** menu, click the **Validate Stage** hyperlink to display the **YJB AssetPlus Stage Validation** screen. The validation runs automatically.

If you receive any warnings, you can still send the YJB submission. If you want to identify the AssetPlus field to which the errors relate so that you can correct them, refer to the *One YJ Asset to AssetPlus Mapping Guide*, available on the One Publications website (<http://www.onepublications.com>).

- Click the **continue** button to return to the **AssetPlus Stage Summary** page.

Requesting signoff and completing a stage

Before submitting a stage to the YJB, it must first be signed off by a manager and then completed by you. These are standard AssetPlus processes and not specific to submitting a stage to the YJB.

More Information:

Requesting Countersignature on page 74

Completing an AssetPlus Stage on page 80

Submitting AssetPlus to the YJB

After the AssetPlus stage has been signed off and completed, you can make a submission to the YJB.

- Open the required client record. For more information, see [Accessing Client Records](#) on page 19.
- Click the **Initiate Transfer** button on the **AssetPlus** panel.

*Note: Only Users with the permission of **Initiate Transfer** will be able to see and use the 'Initiate Transfer' button on the AssetPlus panel. See Case Transfer handbook on [One Publications](#) for more information.*

On selecting the **Initiate Transfer** button, the system performs a check to see if the young person is a Looked After Child (LAC) before displaying the **Case Transfer** screen.

If the young person is recorded as 'Looked After' in AssetPlus, Caretaking will be the only available option as Looked After children cannot be fully transferred.

If the young person is recorded as LAC within the latest completed AssetPlus stage, the Case transfer type of Caretaking Arrangement is selected automatically and cannot be changed. If the young person is not LAC, the option for Full Transfer will also display.

Stage Updates for YJB Placements

When a Caretaking transfer has been accepted by YJB Placements and the Caretaking relationship is established within the system, if the young person is remanded or sentenced to custody, the Caretaking relationship will remain in place with YJB Placements for the duration of the young person’s incarceration. YJB Placements will forward on any AssetPlus submissions from your YOT to the relevant Secure Establishment.

- When a Caretaking transfer has been accepted by YJB Placements and the Caretaking relationship is established within the system, any new AssetPlus stages completed in your YOT need to be sent to YJB Placements/SE in the relationship as a ‘stage update’.
- When a Caretaking relationship is established and a new stage is completed, the stage status will display as ‘Completed – ready to send’.

Sending AssetPlus to YJB Placements

- Click to 'Send Stage Update', which will send only the latest completed stage. There is no need to specify the destination because the system will automatically send the stage update to the other YOT/YJB Placements/SE in the Caretaking relationship that is already established.
- You can view the status of the submission via the relevant Case Transfers Homepage panel (according to your permissions) and the Case Transfer History for the young person.
- Stage updates can also be sent to your YOT by another YOT or YJB Placements/SE in a Caretaking relationship. These will display in the relevant Case Transfers Homepage panel (according to your permissions).
 1. In Case Transfer Tasks panel on the Homepage Select the task link to open the Case Transfer Task screen.
 2. Select the request/task received to open the **Task** screen for the case.

3. Click on the **Regarding** link, which displays the incoming data of the young person for whom the transfer is for.
4. After pre-viewing the Incoming data, click the **Reject/Accept Transfer Request** button.

5. If **Reject** is being selected, the Request Rejection screen will be launched.
6. Select one of the YJB specified reasons why the request is being rejected, then click continue

The screenshot shows a web interface for 'case transfer'. At the top, there is a navigation bar with 'my homepage | clients | providers | opportunities | ys activities' and a 'log out' button. Below the navigation bar, the breadcrumb trail reads 'my homepage > case transfer > case transfer'. The main heading is 'Request Rejection'. Below this, the text says 'Please select the rejection reason from below list:'. There are five radio button options: 'Level of Completeness' (which is selected), 'No agreement to transfer in place', 'Wrong Asset Plus', 'Wrong YOT', and 'Other - please specify'. At the bottom of the form, there are 'back' and 'continue' buttons.

A pop-up message displays to confirm the rejection.

- The stage updates need to be accepted or rejected by a professional.

- If you are sending a stage update to another YOT/YJB Placements/SE, once a professional chooses to accept or reject the stage update, a notification message will sent back to your YOT, which you will be able to see in the relevant Case Transfers Homepage panel (according to your permissions).

- You can then 'acknowledge' the task to remove it from your Case Transfers tasks screen once you have seen it.

- The status of the AssetPlus stage will also be updated on the young person's case to 'Completed – Accepted', or 'Completed – Rejected' according to the action that has been taken at the other YOT/YJB Placements/SE and the activity is updated in the Case Transfer History for the young person.

End a Case Transfer

If a Caretaking arrangement has been established with YJB Placements, this will come to an end either when it is identified that the young person will not require a bed in custody, or when they are released from custody.

In all cases the Caretaking arrangement should only be ended in the system, after the parties involved in the relationship have agreed in practice outside of the system that the caretaking relationship is no longer required.

IMPORTANT NOTE

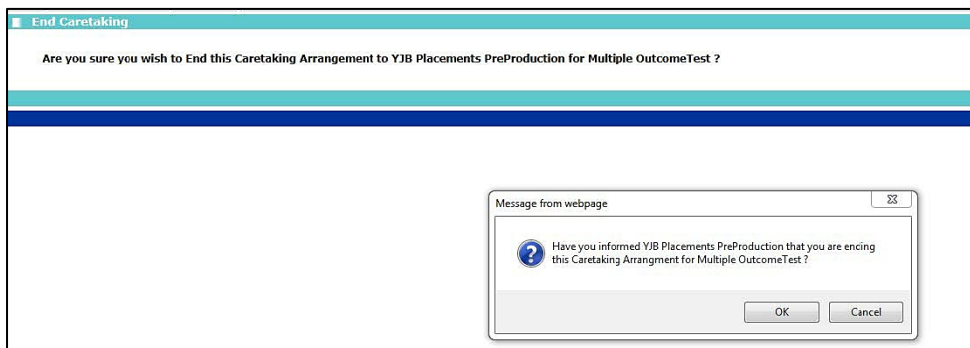

- If the young person is remanded or sentenced to custody, the caretaking relationship with YJB Placements will remain in place, and the YJB will forward AssetPlus submissions to the relevant secure establishment for the duration of the caretaking relationship.
- While the caretaking relationship is in place, any new AssetPlus stages completed will be submitted to the YJB as a single stage update.
 - The caretaking relationship will need to remain in place until:
 - It is established that the young person does not require a bed in custody
 - OR
 - The young person is released from custody
- Once the caretaking relationship is no longer needed, the YOT will 'end' the caretaking relationship using the 'End Transfer' button on the AssetPlus panel of the young person's case, and the YJB Placements team will also 'end' the relationship in YJAF.

1. Access the **Client Summary** screen for the child/young person.
2. In the **AssetPlus** panel select the **End Transfer** button.

The End Caretaking screen is display with the message below:

'Are you sure you wish to End this Caretaking Arrangement to [YOT name] for [name of client].?'

3. Select **Yes**.

A further message displays to ask if you have informed the other party in the Caretaking relationship that you are ending the caretaking arrangements.

5. Select the **OK** button. The screen that follows displays confirmation of action taken.

- Click the **Continue** button to proceed.

Selecting Continue will return you back to the **Case Summary** screen. The end transfer button is no longer available on the **AssetPlus** panel in the **Client Summary** screen and the activity is updated in the **Case Transfer History** for the young person.

NOTE:

No YOT systems will automatically send or receive a notification message to confirm that a caretaking arrangement has been ended in the system. Practice and YJB requirements expect that this will have already been agreed in practice and outside of all the systems involved in the relationship.

Reviewing YJB submissions

To review the details of submitted AssetPlus stage submissions:

- Open the required client record. For more information, see [Accessing Client Records](#) on page 19.
- In the **Actions** menu, click the **Case Transfer History** hyperlink to display the **YJB Submissions** page.

30 | Submitting YJMIS Returns

Submitting a YJMIS Export Job

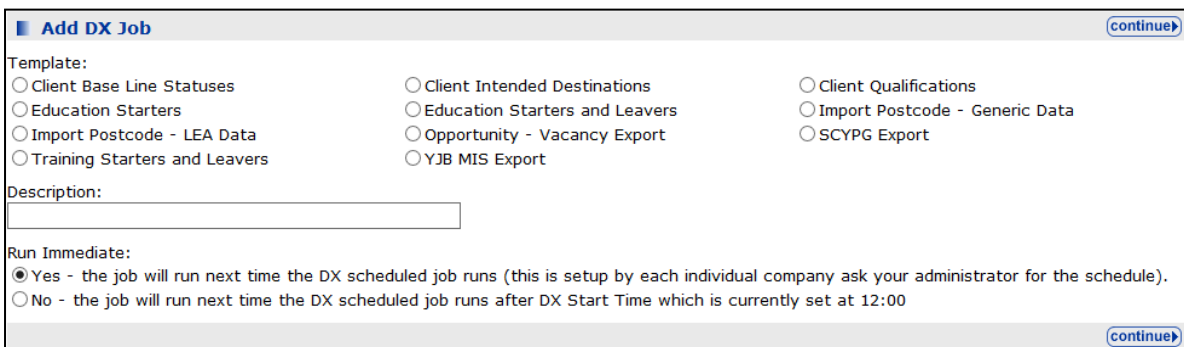

YJMIS export jobs are submitted through the One IYSS web application.

To submit a new YJMIS export job:

1. In the **IYSS Links** panel in **my homepage**, click the **DX Monitoring** hyperlink to display the **DX Jobs** screen.

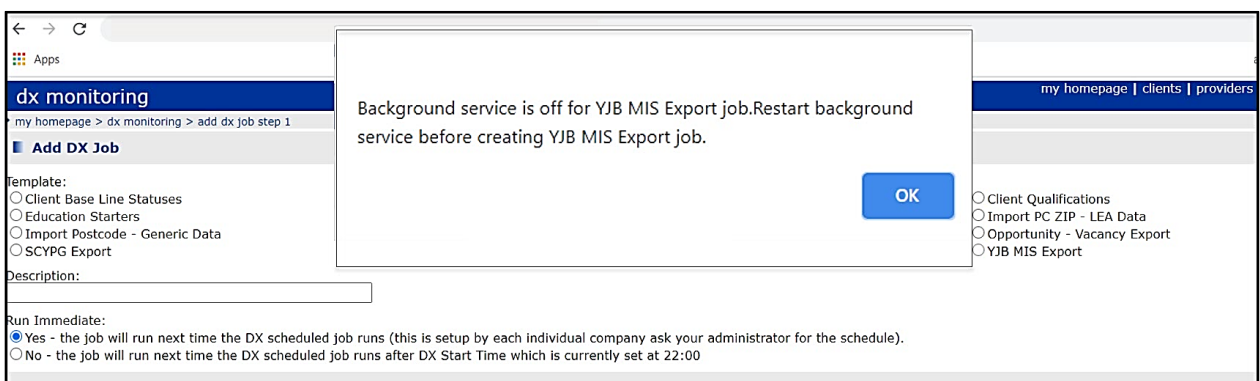

2. Click the **submit** button to display the **Add DX Job** screen.

3. Select the **YJB MIS Export** radio button.

If the background service is off when the radio button is selected, an alert is displayed as shown in screen below. Contact your System Administrator to restart the service to proceed to step 4.

4. Enter a name for the export in the **Description** field.

5. In the **Run Immediate** field:
 - To run the export when the next DX Scheduled Job runs, select the **Yes** radio button.
 - To run the export at the time specified in the 'DX Start Time' system value (**System Administration | System | System Value**), select the **No** radio button.
6. Click the **continue** button to display the next screen.

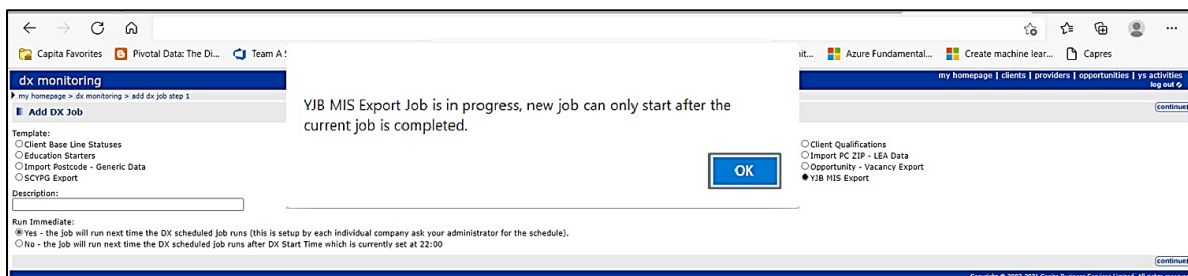

7. Select the **Reporting Period** from the drop-down.
8. If required, select the **Reload All Data** check box. If data is not reloaded, the export file includes cases that were closed within the selected time period as well as the active cases.
9. If you are using Connectivity, select the **YJB Route** from the drop-down.

NOTE: The **YJB Route** field is not displayed if you are not using Connectivity.

10. Click the **continue** button to submit the job and return to the **DX Jobs** screen. The job is added to the **DX Jobs** table. Progress is displayed in the **Started** and **Completed** columns.

31 | MoJ GPS Monitoring Requirements

The following guidance has been created for Capita One Youth Justice (YJ) Customers following recent consultation with the Ministry of Justice (MoJ) and Youth Justice Board (YJB). The purpose of this guidance is to support YJ users with the data capture of GPS Monitoring Requirements in key areas of the software including:

1. Court Appearance & Outcomes
2. Events (contacts)

Note: *the YJB have confirmed that this data will have no immediate impact on the current data recording guidance or statutory returns.*

32 | MoJ Court Appearance & Outcomes

GPS requirements should be recorded with the associated YRO requirements as below

GPS Monitoring Requirements	YRO Requirements
Curfew	Curfew Electronic Monitoring
Monitored Exclusion Zone	Exclusion Electronic Monitoring
Monitored Appointment Attendance	Attendance Centre Education Residence Local Authority Residence Programme
Trail Monitoring	Electronic Monitoring

The data capture of YRO requirements in One YJ has not changed. Users are to continue recording requirements in the Court Appearance Outcome panel as per usual.

33 | MoJ Events

Contacts, Outcomes and Enforcement Actions should be captured as Events as per usual practice. Users are encouraged to utilise the Failure to Comply (FTC) count and automatic breach process to assist with enforcement decision making.

Where possible, users should stipulate GPS Monitoring violations in Event Notes. The following violations have been provided by the MoJ:

- Curfew Violation
- Exclusion Zone Violation
- Strap Tamper
- Battery Depletion
- Appointment Attendance Failure

34 | Appendix A: Offences and Episodes

Criteria for Outstanding, Current and Historic Offences

Outstanding offences cannot be selected for inclusion within episodes. The criteria for outstanding offences are:

- No plea of Guilty, Found Guilty or Offence Admitted for the offence in any court appearance.
- No outcome recorded against the offence.

Current offences can be selected for inclusion in new episodes or added to existing episodes. Current offences are:

- Offences with a plea of Guilty, Found Guilty or Offence Admitted, and with no offence outcome.

Or

- Offences that have a substantive outcome but have no linked intervention programme and have not been included in an episode within a completed AssetPlus stage. An offence can have figured in a previously completed stage as current, provided it was not included in an episode in that stage.

Or

- Offences that have a substantive outcome and have a current intervention programme, using the current data and intervention programme start and end dates to define it as current or not.

Historical offences are offences that have previously been included in an episode in a completed AssetPlus stage and have either:

- A substantive outcome and no linked intervention programme.

Or

- A substantive outcome linked to a previous intervention programme, using the current data and Intervention Programme start and end dates to define it as previous or not.

Episodes and Stage Pre-population

Episodes are created and maintained using offences from the **Current Offences** list. A current offence in an episode of a stage currently in progress remains in the episode for the entire duration of the stage, even if the offence becomes historic while the stage is in progress. The offence is only recorded as historic after the stage has been stopped or completed.

Offences linked to episodes are copied forward from stopped or completed stages to new stages based on the following criteria:

- Episodes with current offences: Current offences are brought forward into the new episode, historical offences are moved into the history. The free text fields corresponding to the episodes are automatically populated forward regardless of whether or not any of the episode's offences remain current.
- Episodes with historical offences only: The episode is not brought forward to the new stage, and all offences are moved to the new stage's offence history. Free text fields relating to the episodes are not populated forwards.

35 | Appendix B: ASB Incidents and Episodes

Criteria for Current and Historic ASB Incidents

Current ASB incidents are any ASB incident where the **Historic** check box is deselected. They can be selected for inclusion in new episodes or added to existing episodes. They also include any incidents that have become historic during the stage currently in progress, however these incidents are only recorded as historic when the stage is stopped or completed.

ASB incidents can be marked as historic by selecting the **Historic** check box in the **ASB Incident Change** screen within a YJ case. This check box is only available if the incident has been included in an episode within a completed AssetPlus stage, and not just if it has been included in the actual stage.

ASB incidents only become historic in AssetPlus when:

- The **Historic** check box has been selected.
- They have been included in an episode in a previously completed AssetPlus stage, unless they are included in an episode in a currently open stage.

Episodes and Stage Pre-population

Episodes are created, edited and maintained from the **Current ASB Incidents** list. A current ASB incident that is included in an episode in a stage currently in progress remains in the episode for the entire duration of the stage, even if it becomes historic while the stage is in progress. The incident is only recorded as historic when the stage is stopped or completed.

ASB incidents included in episodes in stages that have been stopped or completed are populated forward into new stages based on the following criteria:

- Episodes with current ASB incidents: Current incidents are brought forward into the new episode, historical incidents are moved into the history. The free text fields corresponding to the episodes are automatically populated forward regardless of whether or not any of the episode's incidents remain current.
- Episodes with historical ASB incidents only: The episode is not brought forward to the new stage, and all incidents are moved to the new stage's ASB incident history. Free text fields relating to the episodes are not populated forwards.
