Introduction

SSRS (SQL Server Reporting Services) is a powerful and flexible reporting option available to LA's who want to make the wealth of information in their One system more accessible to operational staff and senior leaders. This session provides an advanced look at the SSRS functionality and how it can be used with the Capita One system to publish advanced reports.

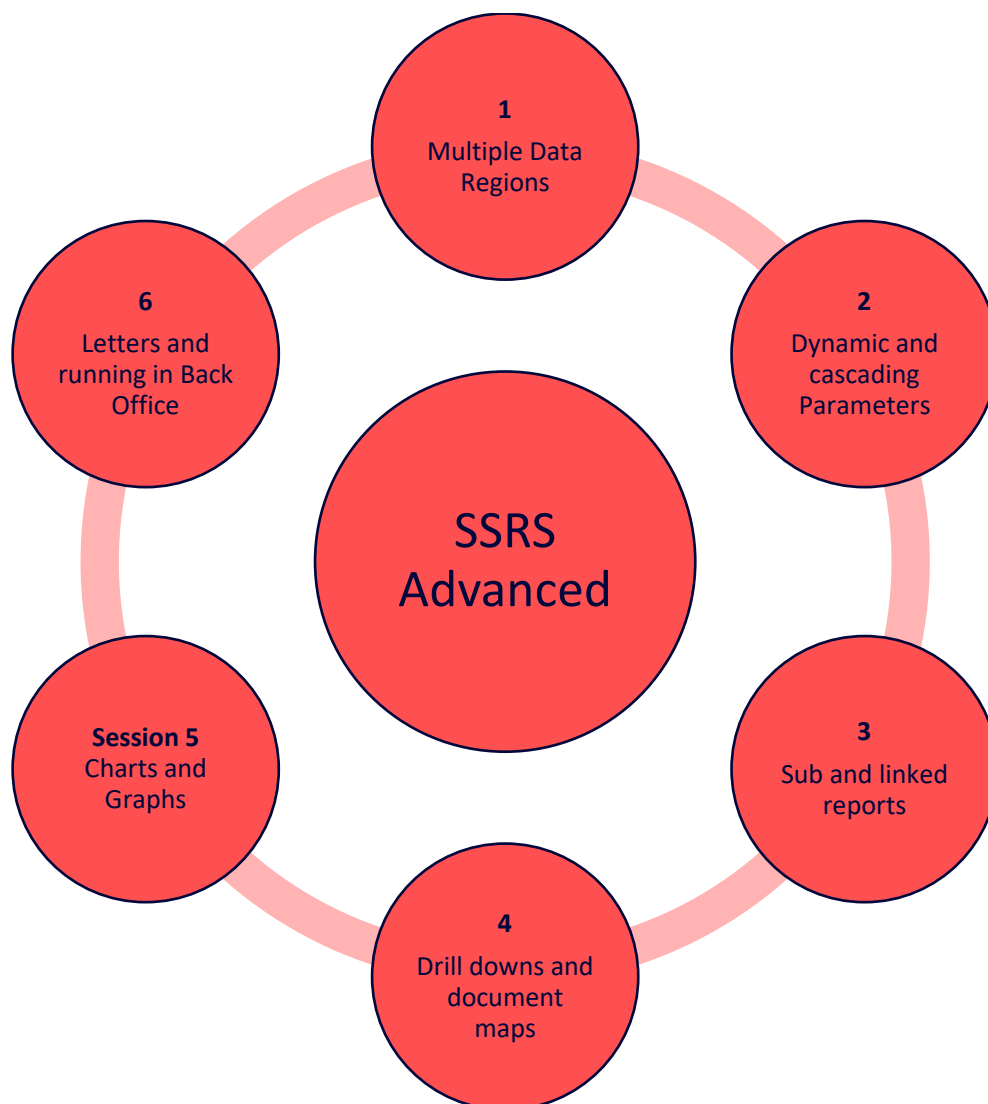

Benefits

Create visually stunning reports and graphs for Management and user.

Pre-requisites

- One V4 Client (Test) access
- MS Report Builder 3.0 2012
- PL\SQL Developer (or similar) to allow editing and testing of SQL changes
- All delegates know SQL (this is not an SQL training session)
- This Delegates Handbook as electronic copy on each PC/Laptop to allow SQL copy/paste
- Oracle client 32 bit
- Login for emsmain database
- Permissions to MS SQL report server
- Basic understanding of Crystal

Service Overview

Capita believe in a strong emphasis on a proactive partnership with the customer. The Capita Project Coordinator will work closely with the customer's appointed Project Lead throughout the project to achieve this. The Capita Project Coordinator is the coordinating Capita staff member assigned to the project and is therefore able to respond authoritatively to the needs of the project and will actively and continually monitor progress on all risks, issues, actions, and decision in order to ensure successful delivery.

Service Details

Open Report Builder and Connect to the Database

Objectives

- Develop further understanding of how SSRS Reports can be used to interrogate the One system
- Understand some of the more advanced functions of SSRS
- Understand conditional formatting, charts and graphs
- Use Dynamic and cascading Parameters

Standard Agenda

- Add a chart to a report
- Modify chart properties
- Dynamic and cascading parameters
- Create a letter
- Run an SSRS report from Back Office as a linked report (Knowledge of Crystal required)
- Multiple dataset reports
- Sub-reports
- Linked Reports
- Drill downs
- Drill throughs
- Document maps
- Subscriptions

Outcomes

- Create interactive reports
- Linking to other reports
- Make reports future proof
- Able to use SSRS in back Office for linked reports
