Introduction

Eligibility for Free School Meals is more than a funded lunch for a child. It opens entitlement to additional funding to support their education within the school. It is a key indicator of social deprivation for the Local authority.

The Grants and Benefits module is the foundation for the Citizen Portal for Free School Meals. Implementing both modules together makes perfect sense to getting the maximum benefit from your investment in time and resources.

Overall using the Grants and Benefits with Citizen Portal:

- Improves the experience for parent, because they can get an immediate response
- The quality of the data submitted integrates with the One system
- This maximizes potential Pupil Premium Funding for schools
- Reduces costs of communicating with parents, because changes to status of applications can be shared via the Citizen Portal
- Claims can auto import into the Grants and Benefits module

Benefits

The Citizen Portal and One Grants and Benefits are fully integrated. As families use the portal, once the once a parent is matched or added, there is no need for local authority teams to manually add applications, streamlining the management of claims. Freeing up resources to be invested where they have the greatest impact, which is supporting parents who fail the validation of their eligibility.

This package provides your Grants and Benefits team with a streamlined project to work to, efficiently implement this both modules as a single project.

- We start by listening and understanding your local challenges so we appreciate how you can get the best out of the software.
- Scoping your requirements to configure your Test environment to suit your needs to support including, customisation of text, UAT testing, to going live with confidence.
- Configure your test system to support training and your own user acceptance testing, so you have a smooth experience.
- Provide training so you can confidently test, and build you experience of how the integration of this public facing application works with your processes.
- Help to set the live environment up so you are ready for parents to apply online, and feel confident that you can maintain and adapt to challenges parents present.

- Finally, we don't abandon you once you go live. We follow up to review how you are managing importing applications and readiness to publish offers.

Pre-requisites

To enable us to provide a quality service, the following engagement be required from the Local Authority:

- Have the Bases module
- Install the licence key into test and do an Ilreset before Session 1
- Remote access for One Technical to install and configure web components
- Access to participate in Microsoft Teams sessions for support and configuration by the knowledge specialist
- One database at the current version or previous version
- Have a test environment that has been refreshed withing the last academic year
- Have are started ECS accreditation for connection to the ONE system to the DWP ECS checker
- Email service for One configured for One
- File upload configure for One
- Appropriate access to all One Clients for the Knowledge Specialist

Service Overview
